Chairman's Statement

On behalf of the board (the “Board”) of directors (the “Directors”) of China Hongqiao Group Limited (the “Company” or “China Hongqiao”), I hereby present the audited consolidated annual results of the Company and its subsidiaries (the “Group”) for the year ended 31 December 2025 (the “Year” or the “Year under Review”).

Looking back at 2025, the global economy experienced a slowdown in growth, finding itself at a critical juncture where recovery coexisted with challenges. The profound adjustments in the global trade landscape and tariff policies, coupled with persistent uncertainties in the geopolitical environment, introduced further variables into the economic outlook. Although regional cooperation and trade negotiations provided support for an open landscape, the volatility arising from the restructuring of global industrial chains continued to constrain overall growth momentum. Despite the aforementioned uncertainties, the Chinese economy still demonstrated robust resilience and a positive momentum. According to data from the National Bureau of Statistics of China, the gross domestic product (GDP) in China surpassed the RMB140 trillion mark for the first time during the Year, achieving an annual growth rate of 5.0%. This milestone signifies notable progress in China's high-quality development and represents a significant achievement as the “14th Five-Year Plan” drew to a successful conclusion. With the accelerated cultivation of new quality productive forces, the in-depth implementation of innovation-driven strategies, and the rollout of measures to expand domestic demand and deepen reform and opening-up, the Chinese economy continues to maintain its fundamentally positive long-term outlook, injecting growth momentum into global economic stability.

In terms of the industry, the performance of the global commodity markets showed divergence during the Year. China's primary aluminum production recorded modest growth, gradually approaching the production capacity ceiling under supply-side reforms and reaching a record high. Concurrently, the industrial demand structure continued to adjust, with the growth drivers for aluminum consumption shifting towards emerging sectors such as new energy vehicles, power grids, energy storage, and high-end manufacturing. Driven by numerous factors including China's consumption stimulus policies of “trade-in schemes”, interest rate cuts by the U.S. Federal Reserve, frequent occurrence of overseas production cuts, and increasing potential supply risks, aluminum prices maintained a relatively strong trend throughout the year. By the year-end, the prices touched a three-year high, with the overall price level shifting upwards.

In this era of profound changes and hidden opportunities, the Group, with a pragmatic and innovative approach, is committed to being a practitioner and leader in the industry's deep transformation. During the Year, the Group continuously advanced intelligent production, green energy transition, and industrial integration, reshaping business paradigms through technological innovation. Meanwhile, adhering to the development philosophy of technology and innovation-led approach, digital intelligence empowerment, ecological prioritisation and collaborative success, the Group focused on the national strategic needs in science and technology and cultivated a strong foundation in talent development and technological innovation, driving conceptual renewal and systemic upgrades through practical applications, thereby creating a new development landscape characterised by complementary advantages and mutually beneficial outcomes.

During the Year under Review, the Group's revenue was approximately RMB162,353,725,000, representing a year-on-year increase of approximately 4.0%. Gross profit amounted to approximately RMB41,505,249,000, representing a year-on-year decrease of approximately 1.6%. Net profit attributable to shareholders of the Company amounted to approximately RMB22,636,105,000, representing a year-on-year increase of approximately 1.2%. Basic earnings per share were approximately RMB2.3842 (corresponding period in 2024: approximately RMB2.3611). The Board proposed the payment of a final dividend of HK165 cents per share for the year 2025 (cumulative dividends for the year 2024: HK161 cents per share).

During the Year under Review, against the backdrop of high global aluminum prices and fluctuating raw material and energy costs, the Group's meticulously developed “integrated upstream and downstream industrial chain” model continued to serve as a solid foundation for its steady development, providing stable and competitive cost advantages for the Group's growth. Coupled with the proactive deployment of overseas bauxite resources in earlier years to foster a mutually beneficial global development pattern, this enabled the Group to maintain a leading level of profitability over the long term, demonstrating exceptional risk resilience and operational tenacity capable of navigating business cycles.

Chairman's Statement

Leveraging its rich and diverse application scenarios, the Group is currently actively utilising digital and intelligent technologies to drive a comprehensive upgrade of its production and management systems. With technological innovation as the core driver, it explores practical pathways for the deep integration of “intelligent reconstruction” and “digital and intelligent transformation”, precisely formulating reinforcement strategies and deepening the data governance framework to ensure the efficient implementation of such strategies. The Group continues to deepen its presence in the aluminum industry, striving to enhance industrial efficiency, and further improves the complete industrial chain covering bauxite mining, alumina production, primary aluminum smelting, deep processing of aluminum products, and aluminum recycling. Continuous breakthroughs have been achieved in the construction of smart alumina plants and future-oriented electrolytic aluminum factories. Through the “Smart Aluminum Large Model”, the Group has pioneered a new intelligent production paradigm of “AI + Electrolytic Aluminum”, driving conceptual innovation and systemic upgrades in practical applications, and further strengthening its core competitiveness.

During the Year under Review, the Group continued to advance its green and low-carbon strategy. It diligently implemented the “three-step” strategy outlined in the Carbon Reduction Action Report of China Hongqiao Group Limited published during the Year, advancing emission reduction targets in phases. The Group implemented carbon reduction initiatives throughout the entire process of investment, construction, production, and operation, continuously increasing the proportion of clean energy to inject strong momentum into high-quality green development. Notably, the Yunnan Green and Low-Carbon Demonstration Industrial Park and the Wenshan Smart Aluminum Project officially commenced operations, establishing itself as a significant benchmark for industrial upgrading and green transformation. The integrated “Wind-Solar-Storage” new energy project in Yunnan, a core pillar of the Group’s green energy framework, progressed steadily, with the first phase of photovoltaic projects achieving full-capacity grid connection. Looking ahead, the Group will continue to implement the “dual carbon” strategy through actual actions, persistently leading the traditional manufacturing industries towards green and low-carbon development.

During the Year, several of the Group’s projects were successively completed and put into operation, yielding a series of breakthrough achievements in the fields of new materials, new technologies, and new processes. This further consolidated the Group’s leading edge in the global aluminum alloy materials and green manufacturing sectors. Among these, the world’s first NEUI600+ super electrolytic cell production line deployed for scaled application at Yunnan Honghe New Materials Co., Ltd. (雲南宏合新型材料有限公司) commenced smooth operation during the Year. This production line entirely utilises the Group’s proprietary 600kA Plus extra-large aluminum electrolytic cells and incorporates several unique innovative technologies. As a core benchmark project within the Yunnan Green Aluminum Innovation Industrial Park, the high-precision aluminum alloy slabs project with the annual production capacity of 250,000 tonnes of the Group’s subsidiary, Yunnan Hongyan New Material Co., Ltd. (雲南宏硯新材料有限公司), was officially put into operation. This further strengthens the Group’s green aluminum strategic framework and promotes the quality enhancement and upgrading of the entire green aluminum industry chain.

In the field of lightweighting, the Group achieved a series of remarkable results. Its subsidiary, Shandong Hongqiao Lightweight Technology Co., Ltd. (山東宏橋輕量化科技有限公司), was honored with the “2025 China Excellent Die Castings Award for Special Contribution” and the “Excellent Casting Award” at the 19th Shanghai International Diecasting Exhibition. Furthermore, its “Shandong Aluminum Alloy Lightweight Materials Pilot Platform” was selected for the first national list of key cultivated pilot platforms, demonstrating the Group’s scientific research capabilities and industrial value.

Chairman's Statement

During the Year under Review, the Group, rooted in its core business, deepened its involvement across the entire industrial chain, garnering recognition and accolades across various dimensions including comprehensive strength, corporate governance, and sustainable development in authoritative selections both domestically and internationally. These honors serve as a powerful testament to the Group's robust development. Notably, the Group was jointly recognised by top international media outlets and professional institutions, including TIME magazine, and was listed among authoritative corporate rankings in the Asia-Pacific region as a representative of the aluminum industry. It not only maintained a leading position in the overall rankings of the Forbes Global 2000 for 2025 but also secured the second place among global aluminum enterprises. Concurrently, it received industry accolades such as the "ESG Leading Enterprises 2025" honor and the "Listed Enterprises 2025" award from Bloomberg Businessweek/Chinese Edition. These honors are strong affirmation of the Group's deep commitment to the aluminum industry, its construction of an integrated full-industry chain structure, and its consistent practice of high-standard ESG principles.

During the Year, leveraging its diversified financing channels, exceptional market performance, and solid financial strength, the Group continued to earn high recognition from domestic and international investors, leading to credit rating upgrades for its domestic and overseas bond issuers. Notably, during the Year, Shandong Hongqiao New Material Co., Ltd. (山東宏橋新材料有限公司), a subsidiary of the Group, successfully issued short-term financing bills, medium-term notes, and corporate bonds, with a total value of RMB10.6 billion. Shandong Weiqiao Aluminum & Power Co., Ltd. (山東魏橋鋁電有限公司) also successfully issued short-term financing bills and medium-term notes during the Year, with a total value of RMB2.0 billion. They received recognition and a positive response from a wide range of investors. Furthermore, the Group actively seized offshore financing windows, achieving several milestone results: it successfully completed two issuances of USD-denominated bonds and one issuance of convertible bonds during the Year. Among these, the US\$300 million convertible bonds made the Company become the first listed company in the Hong Kong stock market to innovatively employ a "convertible bond + share repurchase" model for composite financing, establishing a quality benchmark in the capital markets through flexible and pragmatic capital strategies and outstanding market performance. Among the two USD-denominated bonds mentioned, the US\$330 million senior unsecured notes, as the first high-yield USD bond in Asia in 2025, achieved an oversubscription of over 10 times upon issuance. This not only realised a negative new issue premium but also set the lowest coupon record for similar bonds issued by Chinese non-local government financing vehicle enterprises since February 2022, fully demonstrating the high level of recognition from international investors for the Group. In terms of equity financing, the Group completed a US\$1.5 billion top-up placement. This project represents the largest refinancing undertaking by China Hongqiao since its listing in Hong Kong. It attracted participation from numerous top-tier global long-term funds and achieved an oversubscription of over seven times. By virtue of its multi-dimensional and multi-layered financing system and a series of outstanding performance, the Group was honored with several authoritative awards, including the "2025 Outstanding Issuer" from Duration Finance and the "Best Mining High-Yield Bond" from The Asset, a leading international financial institution. These accomplishments not only affirm the Group's steady progress within its industrial sector but also establish a reliable and high-quality image as a bond issuer, built upon consistent operational efficiency improvement, prudent financial management, and rigorous and trustworthy bond performance, demonstrating strong brand influence in the capital markets.

On behalf of the Board, I would like to express my sincere gratitude to the Group's management and all employees for their dedication and concerted efforts during 2025. I also wish to extend our heartfelt thanks to our shareholders, investors, and partners for their continued trust and steadfast support. China Hongqiao will remain true to its original aspirations, forging ahead with determination, and working hand in hand with all stakeholders to create a new chapter of higher quality and sustainable development!

Zhang Bo

Management Discussion and Analysis

INDUSTRY REVIEW

During the Year, both domestic and international aluminum price peaks reached three-year highs. The continued high price levels were primarily attributable to the ongoing deepening of the supply-side structural reforms in China's aluminum industry, which further narrowed the room for production growth. Additionally, persistent disruptions in overseas supply, including elevated electricity prices in Europe which hindered local companies from resuming production, and slower-than-expected pace of commissioning of new projects in Indonesia, continued to tighten global supply.

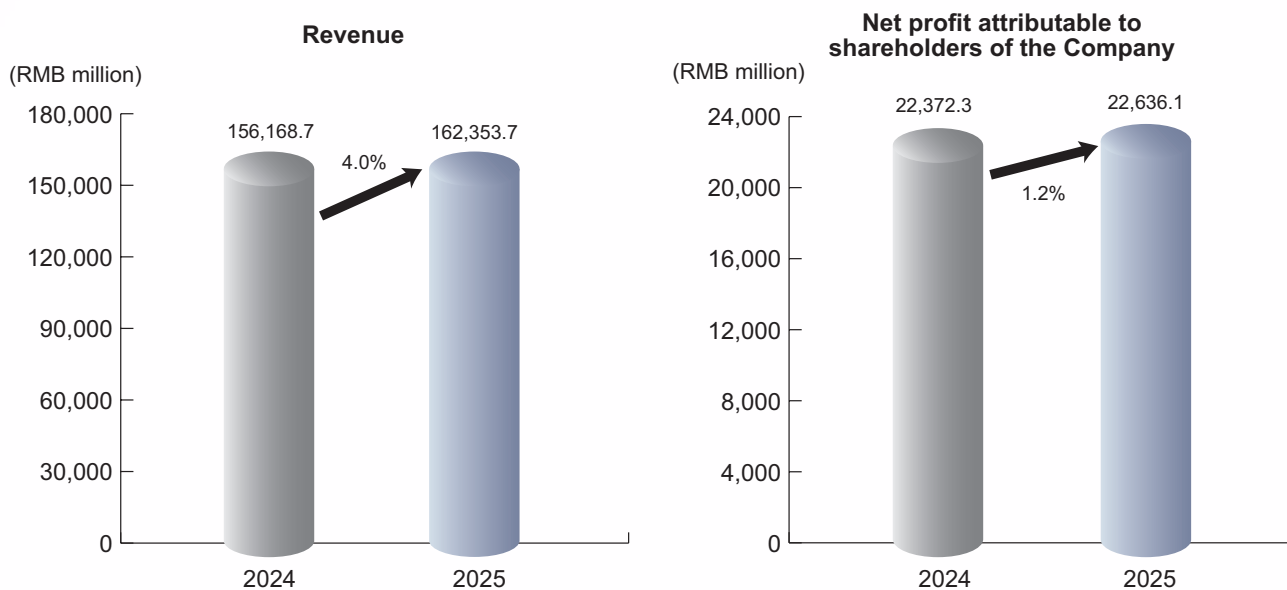

According to data from Beijing Antaike Information Technology Co., Ltd. ("Antaike"), during the Year under Review, the average price of three-month aluminum futures on the London Metal Exchange (LME) was approximately US\$2,641/tonne, representing a year-on-year increase of approximately 7.5%; and the average price of three-month aluminum futures on the Shanghai Futures Exchange (SHFE) was approximately RMB20,698/tonne, representing a year-on-year increase of approximately 3.5%.

According to the statistics of Antaike, during the Year, the global output of primary aluminum was approximately 74.23 million tonnes, representing a year-on-year increase of approximately 1.7%. Global consumption of primary aluminum was approximately 74.24 million tonnes, representing a year-on-year increase of approximately 2.3%. In the Chinese market, the output of primary aluminum during the Year was approximately 44.23 million tonnes, representing a year-on-year increase of approximately 1.8% and accounting for approximately 59.6% of the global output. Primary aluminum consumption in China was approximately 46.34 million tonnes, representing a year-on-year increase of approximately 2.6% and accounting for approximately 62.4% of the global consumption.

Management Discussion and Analysis

BUSINESS REVIEW

The Group's comparative figures of revenue and net profit attributable to shareholders of the Company for the year ended 31 December 2025 and 2024 are as follows:

For the year ended 31 December 2025, the Group's revenue was approximately RMB162,353,725,000, representing a year-on-year increase of approximately 4.0%, mainly due to the year-on-year increases in the sales price of aluminum alloy products, the sales volume of alumina products, as well as both the sales volume and sales price of aluminum fabrication products of the Group.

During the Year, the Group's sales volume of aluminum alloy products was approximately 5.824 million tonnes, which remained largely stable as compared with that of the corresponding period last year. The average sales price of aluminum alloy products grew by approximately 3.8% to approximately RMB18,216/tonne (excluding value-added tax) as compared with that of the corresponding period last year. The Group's sales volume of alumina products was approximately 13.397 million tonnes, representing a year-on-year increase of approximately 22.7%. The average sales price of alumina products decreased by approximately 15.2% to approximately RMB2,899/tonne (excluding value-added tax) as compared with that of the corresponding period last year. The sales volume of the Group's deep processed products of aluminum fabrication products was approximately 716,000 tonnes, which remained largely stable as compared with that of the corresponding period last year, while the average sales price grew by approximately 3.1% to approximately RMB20,874/tonne (excluding value-added tax) as compared with that of the corresponding period last year.

For the year ended 31 December 2025, net profit attributable to shareholders of the Company amounted to approximately RMB22,636,105,000, representing a year-on-year increase of approximately 1.2%, mainly due to the increase in the sales price of aluminum alloy products as compared with the corresponding period last year.

Steam	736,793	(325,252)	(44.1)	0.5	812,202	(74,205)	(9.1)	0.5
Total	162,353,725	41,505,249	25.6	100.0	156,168,720	42,162,692	27.0	100.0

For the year ended 31 December 2025, the Group's revenue derived from aluminum alloy products was approximately RMB106,096,389,000, representing an increase of approximately 3.6% as compared to that of approximately RMB102,433,767,000 for the corresponding period last year, mainly due to the increase in the sales price of aluminum alloy products as compared with the corresponding period last year. The revenue derived from alumina products was approximately RMB38,833,758,000, representing an increase of approximately 4.0% as compared to that of approximately RMB37,351,737,000 for the corresponding period last year, mainly due to the increase in the sales volume of alumina products as compared with the corresponding period last year. The revenue from deep processed products of aluminum fabrication products was approximately RMB14,956,116,000, representing an increase of approximately 4.0% as compared to that of approximately RMB14,379,360,000 for the corresponding period last year, mainly due to the increase in the sales price of deep processed products of aluminum fabrication products as compared with the corresponding period last year.

For the year ended 31 December 2025, the overall gross profit margin of the Group's products was approximately 25.6%, representing a decrease of approximately 1.4 percentage points as compared to that of approximately 27.0% for the corresponding period last year, mainly due to the decrease in the gross profit margin of the Group's alumina products as compared with the corresponding period last year. Gross profit margin of aluminum alloy products was approximately 28.5%, representing an increase of approximately 3.9 percentage points as compared to that of the corresponding period last year, mainly due to the increase in the sales price of aluminum alloy products as compared with the corresponding period last year. Gross profit margin of alumina products was approximately 22.2%, representing a decrease of approximately 13.2 percentage points as compared with that of the corresponding period last year, mainly due to the decrease in the sales price of alumina as compared with the corresponding period last year. Gross profit margin of deep processed products of aluminum fabrication products was approximately 19.2%, representing a decrease of approximately 6.7 percentage points as compared with that of the corresponding period last year. This decrease was mainly due to the impact of the decrease in capacity utilisation rate and the abolition of the export tax rebate on deep processed products of aluminum fabrication products.

Management Discussion and Analysis

Selling and distribution expenses

For the year ended 31 December 2025, the Group's selling and distribution expenses were approximately RMB743,466,000, representing an increase of approximately 12.5% as compared with approximately RMB661,024,000 for the corresponding period last year, which was mainly due to increased sales volume of alumina, leading to an increase in freight costs as compared with that of the corresponding period last year.

Administrative expenses

For the year ended 31 December 2025, the Group's administrative expenses amounted to approximately RMB4,274,597,000, representing a decrease of approximately 14.4% as compared with approximately RMB4,992,949,000 for the corresponding period last year, which was mainly due to the decrease in research and development expenses included in administrative expenses.

Finance costs

For the year ended 31 December 2025, the Group's finance costs amounted to approximately RMB3,483,268,000, representing an increase of approximately 3.6% as compared with approximately RMB3,363,259,000 for the corresponding period of last year, which was mainly due to the increase in the Group's total interest-bearing debts during the Year, leading to a corresponding increase in interest expenses.

Liquidity and financial resources

As at 31 December 2025, the Group's cash and cash equivalents were approximately RMB51,187,377,000, representing an increase of approximately 14.3% as compared to that of approximately RMB44,770,241,000 as at 31 December 2024. The increase in cash and cash equivalents was mainly due to the increase in the Group's net cash inflow from operating activities during the Year.

For the year ended 31 December 2025, the Group's net cash inflow from operating activities was approximately RMB38,995,459,000, net cash outflow from investing activities was approximately RMB22,494,351,000, and net cash outflow from financing activities was approximately RMB10,135,579,000. Net cash outflow from investing activities was mainly attributable to the cash outflows for the purchase of properties, plants and equipment. Net cash outflow for financing activities was mainly attributable to the cash outflows for the dividend payout and the payment of interest on debts by the Group during the Year.

For the year ended 31 December 2025, the Group's capital expenditure amounted to approximately RMB10,656,667,000, mainly for the payment of the quality guarantee deposits for the preliminary stages of construction projects in accordance with the relevant contracts, and the construction expenditure of the green aluminum innovation industrial park project in Yunnan (雲南綠色鋁創新產業園項目), lightweight material base (輕量化材料基地), new energy projects and others.

As at 31 December 2025, the Group had capital commitment of approximately RMB5,832,706,000 in relation to the purchase of the property, plant and equipment in the future, primarily for the construction projects such as the green aluminum innovation industrial park project in Yunnan, lightweight material base, and new energy projects. In addition, the Group agreed to provide performance guarantee in respect of the funding obligations of its associates in the iron ore project in Simandou, Guinea, pursuant to which the Group undertook to fund the project to an amount not exceeding US\$1,780,000,000, equivalent to approximately RMB12,607,206,000 (indirectly including the obligations of the Group for its relevant funding contribution under the Winning Consortium Holdings Pte. Ltd. Shareholders Agreement).

Management Discussion and Analysis

As at 31 December 2025, the Group's trade receivables amounted to approximately RMB8,894,377,000, representing a decrease of approximately 9.0% as compared with that of approximately RMB9,773,923,000 as at 31 December 2024, which was mainly due to faster payment collections from certain customers.

As at 31 December 2025, the Group's prepayments and other receivables amounted to approximately RMB5,957,675,000, representing a decrease of approximately 23.7% as compared with that of approximately RMB7,811,711,000 as at 31 December 2024, which was mainly because certain prepayments and other receivables as at the end of 2024 were utilised or collected during the Year.

As at 31 December 2025, the Group's inventory was approximately RMB36,635,529,000, representing a decrease of approximately 1.9% from approximately RMB37,344,003,000 as at 31 December 2024, which was mainly due to a slight decrease in both the inventory volume and unit price of raw materials.

Contingent liability

As at 31 December 2025 and 2024, the Group had no material contingent liabilities save as disclosed in this annual report.

Income tax

The Group's income tax for 2025 amounted to approximately RMB8,892,527,000, representing an increase of approximately 7.8% from approximately RMB8,251,619,000 for the corresponding period last year, primarily due to an increase in unrecognised deferred income tax assets of the Group.

Net profit attributable to shareholders of the Company and earnings per share

For the year ended 31 December 2025, net profit attributable to owners of the Company was approximately RMB22,636,105,000, representing an increase of approximately 1.2%, as compared to approximately RMB22,372,331,000 for the corresponding period last year.

During the Year, basic earnings per share of the Company were approximately RMB2.3842 (2024: approximately RMB2.3611).

Capital structure

The Group has established an appropriate liquidity risk management framework to secure its short, medium and long-term funding supply and to satisfy its liquidity need. As at 31 December 2025, the cash and cash equivalents of the Group amounted to approximately RMB51,187,377,000 (31 December 2024: approximately RMB44,770,241,000), which were mainly placed in commercial banks. Such level of cash and cash equivalents would assist in ensuring stability and flexibility of the Group's business operations and providing strong support for the construction of the Group's major projects. The Group will continue to take effective measures to ensure sufficient liquidity and financial resources, so as to satisfy the business needs and maintain a sound and stable financial position.

As at 31 December 2025, the total liabilities of the Group amounted to approximately RMB103,668,524,000 (31 December 2024: approximately RMB110,551,534,000). Gearing ratio (total liabilities to total assets) was approximately 42.2% (31 December 2024: approximately 48.2%).

Management Discussion and Analysis

The Group used certain of its restricted bank deposits, inventories, trade receivables, equipment and right-of-use assets as collateral for bank borrowings to provide part of the funding for its daily business operations and project development. As at 31 December 2025, secured bank borrowings of the Group amounted to approximately RMB15,870,539,000 (31 December 2024: approximately RMB15,547,656,000).

As at 31 December 2025, the Group's total bank borrowings were approximately RMB43,411,571,000. The Group maintained an appropriate portfolio of liabilities at fixed interest rates and variable interest rates to manage its interest expenses. As at 31 December 2025, approximately 47.5% of the Group's bank borrowings were subject to fixed interest rates while its remainder of approximately 52.5% was subject to floating interest rates.

The Group aims to maintain a balance between the continuity and flexibility of financing through utilising various debt financing instruments. As at 31 December 2025, liabilities of the Group, other than bank borrowings included short-term bonds of approximately RMB2,000,000,000, medium-term notes and corporate bonds of approximately RMB20,134,907,000, guaranteed notes of approximately RMB4,188,286,000 and convertible bonds (inclusive of derivatives components) of approximately RMB4,700,778,000, the interest rates of which ranged from 1.50% to 7.05% per annum. Such notes and bonds would facilitate the optimisation of the Group's debt structure and reduce financing costs.

As at 31 December 2025, the Group had net current assets of approximately RMB60,477,849,000. The Group will continue to expand its financing channels and optimise its debt structure. In addition, the Group will continue to control its production costs, enhance its profitability and improve its cash flow position in order to ensure adequate liquidity.

As at 31 December 2025, the Group's liabilities were mainly denominated in RMB and foreign currency, of which, approximately 85.3% of the total liabilities were denominated in RMB, and approximately 14.7% were denominated in foreign currency. The Group's cash and cash equivalents were mainly held in RMB and foreign currency, of which approximately 87.9% were held in RMB and approximately 12.1% were held in foreign currency.

Details of the currency, maturity and interest rate of the borrowings, notes and bonds are set out in notes 35, 37 to 40 to the consolidated financial statements.

Pledged assets

Details of the pledged assets of the Group are set out in note 48 to the consolidated financial statements.

Employee and remuneration policy

As at 31 December 2025, the Group had a total of 51,234 employees, which remained largely stable as compared to 31 December 2024. During the Year, the total staff costs of the Group amounted to approximately RMB6,051,284,000, representing an increase of approximately 8.9% from approximately RMB5,557,824,000 for the corresponding period last year, mainly due to the increase of staff salary during the Year, leading to the increase in staff costs. The total staff costs of the Group were approximately 3.7% of its revenue. The remuneration packages of the employees of the Group include salaries, various allowances and benefits. In addition, the Group established a performance-based incentive mechanism under which the employees may be awarded additional bonuses. The Group provided training programmes to employees to equip them with the requisite working skills and knowledge.

Management Discussion and Analysis

Foreign exchange risk

The Group collected most of its revenue in RMB and funded most of its expenditures in RMB. As the import of bauxite and production equipment, export for certain aluminum fabrication products, certain bank balances and bank borrowings, convertible bonds and senior notes are denominated in foreign currencies, the Group is exposed to certain foreign exchange risk. As at 31 December 2025, the Group's bank balances denominated in foreign currencies were approximately RMB6,217,760,000, and liabilities denominated in foreign currencies were approximately RMB10,948,343,000.

For the year ended 31 December 2025, the Group had an exchange loss of approximately RMB302,156,000 (2024: exchange loss of approximately RMB222,689,000).

During the Year under Review, the Group actively took measures to mitigate currency exchange rate fluctuation risks, and ensured the foreign exchange risks were generally under control. The Group actively took the following measures to prevent foreign exchange risks in accordance with its business operations: (i) reasonable arrangements for foreign currency financing and foreign exchange revenue and expenditure with timely adjustments to the foreign exchange fund management scheme; (ii) promotion of a cross-border fund pool management model which centralised and unified management and use of domestic and overseas funds in order to reduce settlement and sale costs and currency exchange losses; and (iii) timely use of exchange rate risk management instruments to hedge foreign exchange risks in conjunction with changes in exchange rates and interest rates.

Management Discussion and Analysis

MAJOR RISKS AND UNCERTAINTIES

The Group faces certain risks and uncertainties during its operation, among which, there are certain risks that the Group cannot control. Such risks and uncertainties include factors such as economy conditions of both inside and outside China, credit policy and foreign exchange policies of the PRC, changes related to laws, regulations and enforcement policies, and the prices and supply of raw materials and aluminum products.

With the growth and expansion of the Group's operations, the potential risks to the Group's business increase as well. In order to identify, assess and control the risks that may create impediments to the Group's success, the Group has implemented a risk management system that covers every key aspect of its business operations, including financial security, production and compliance. As the Group's risk management is a systematic project, each of its departments is responsible for identifying and evaluating the risks relating to their area of operations. The audit committee of the Board is responsible for overseeing and assessing the Group's risk management policy and supervising the performance of risk management system.

ENVIRONMENTAL PROTECTION POLICY

The Group has established a dedicated environmental protection department. The environmental protection department is responsible for overseeing the environmental protection of the Group as a whole, such as formulating environmental-related guidelines and policies for the Group, paying attention to the latest development in the environmental-related laws, regulations and standards in the PRC, regularly inspecting the production and pollutant discharge facilities of the Group, handling the application for environmental protection permit documents, inspecting the construction projects of the Group and handling other necessary filings and so on.

During the power generation process, the Group's power plant discharges sewage, emits air pollutants, such as sulphur dioxide, and produces noise. The Group has installed dedusting, desulphurisation and denitrification equipment in its power station to reduce the emission of air pollutants. The Group has also installed water recycling and treatment equipment to minimise the impact of sewage on the environment. The Group's power station has obtained the pollutant emission permits and has satisfied the emission requirements provided by local governments. In addition, the Group has installed sound insulation equipment to reduce the impact of the noise produced in the daily operations of the power station. The Group has implemented and completed the super-low emission's reform of all coal-fired power generation units, which have met the emission level that required for the gas power generation units.

During the manufacturing process of aluminum products, the Group's factory discharges sewage, emits air pollutants and produces noise. The Group has installed equipment for dedusting as well as flue gas desulphurisation and purification in the manufacturing facilities to minimise the emission of air pollutant. The Group recycles and reuses aluminum scraps generated during the production process, so as to reduce industrial waste and increase its utilisation rate.

In addition, the Group has installed sound insulation equipment to reduce the impact of the noise produced in the daily operations of its manufacturing bases.

IN COMPLIANCE WITH LAWS AND REGULATIONS

The Company is established in Cayman Islands, and most of the Group's operations are performed in domestic China, while the Company is listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). During the year ended 31 December 2025 and until the date of publishing this annual report, the Group has always been committed to complying with relevant requirements of the laws and regulations in operation respects.

Management Discussion and Analysis

RELATIONSHIPS WITH KEY STAKEHOLDERS

Employee

Human resources are one of the Group's greatest assets and the Group regards the personal development of its employees as highly important. The Group strives to motivate its employees with a clear career path and opportunities for advancement and improvement of their skills. The Group provides pre-employment, on-the-job training and development opportunities to our staff members. The training programmes cover areas such as managerial skills, sales and production, customer services, quality control, working conduct and training of other areas relevant to the industry. The Group will consider carefully about the precious feedback in relation to enhancing working efficiency and harmonious working atmosphere. Besides, the Group will provide competitive remunerations for employees. The Group will also grant extra bonus to employees according to their performance, as a recognition and award for employees who have contributed to the Group's growth and development.

Suppliers

The Group has developed long-term cooperative relationships with many suppliers and taken great care to ensure that they can share the Group's commitment to product quality and ethics. The Group carefully selects its suppliers and requires them to satisfy certain assessment criteria including track record, experience, financial strength, reputation, ability to produce high-quality products and effectiveness of quality control. The Group also requires suppliers to comply with the Group's anti-bribery policies.

Customers

The Group has established long-term cooperative relationship with many customers by strengthening relationships with the existing customers while cultivating relationships with potential customers. The Group visits and contacts customers so as to keep contact with them. The Group has also established sales and marketing teams covering Shandong Province, Northeastern, Southern, Eastern, Southwest and Northern China, where the customers are located.

FUTURE PROSPECT

Looking ahead, the global economy still faces multiple uncertainties, with trade barriers intertwined with policy fluctuations, and growth resilience coexisting with downward pressures. Meanwhile, the Chinese economy continuously unlocks domestic demand potential amidst structural adjustments. Precisely targeted policies will also provide ongoing support for industrial development and generate further opportunities within the context of the delicate balance between supply and demand in the aluminium industry. Seizing this moment, the Group will continue to anchor itself to the vision of "building a respected, century-standing manufacturing enterprise". We will deepen our focus on the core aluminum industry sector, proactively align with and deeply integrate into the national "15th Five-Year Plan" strategies for independent technological innovation, industrial upgrading, and the domestic circulation. By solidifying our core competitiveness through digital empowerment and green transformation, we will respond to market challenges and chart a new industrial blueprint through innovation driven growth and high-quality development amidst the wave of industrial transformation and reform. We aim to break new ground, forge ahead towards the future, harness the momentum of the times, demonstrate industrial responsibility, and build a lasting, evergreen enterprise through sustained progress.

Report of the Directors

The Directors of the Company present the annual report and the audited consolidated financial statements of the Group for the year ended 31 December 2025.

PRINCIPAL ACTIVITIES

The Group is principally engaged in the manufacturing and sales of aluminum products. Currently, the Group's aluminum products consist of molten aluminum alloy, aluminum alloy ingots, aluminum fabrication products and alumina products.

Details of the subsidiaries of the Company are set out in note 54 to the consolidated financial statements.

DIVIDEND POLICY

The Company has adopted a dividend policy, pursuant to which the Company may declare and distribute dividends to the shareholders of the Company to allow shareholders to share the Company's profits and the Company to retain adequate reserves for future growth.

According to the articles of association of the Company (the "Articles of Association"), the declaration of dividends is subject to the discretion of the Board and the approval of the shareholders. In proposing any dividend payment, the Directors shall take into account the Company's operations, earnings, financial condition, cash requirements and availability, capital expenditure and future development requirements as well as any other factors as they may deem relevant at such time. Any declaration, payment and the amount of the dividends will be subject to the Articles of Association and the Companies Law of the Cayman Islands, including the approval of the shareholders. Any future declarations of dividends may or may not reflect the Company's historical declarations of dividends and will be at the absolute discretion of the Directors.

The dividends paid by the Company will also depend upon the availability of dividends received from the Company's subsidiaries in the PRC. PRC laws require that dividends be paid only out of the profit for the year calculated according to PRC accounting principles, which differ in many aspects from generally accepted accounting principles in other jurisdictions, including IFRS. PRC laws also require foreign-invested enterprises to set aside part of their profit for the year as statutory reserves, which are not available for distribution as cash dividends. Distributions from the Company's subsidiaries may also be restricted if they incur debt or losses or pursuant to any restrictive covenants in bank credit facilities or other agreements that the Company or the Company's subsidiaries and associated companies may enter into.

Any dividends declared will be in Hong Kong dollars with respect to the shares of the Company on a per share basis, and the Company will pay such dividends in Hong Kong dollars.

Report of the Directors

1. Provision of industrial waste services to the Company by Beihai Solid Waste

On 31 January 2019, the Company and Binzhou City Beihai Weiqiao Solid Waste Disposal Co., Ltd. (“Beihai Solid Waste”), the Company’s connected person, entered into an industrial waste service agreement for a term commencing on 31 January 2019 and ending on 31 December 2021, pursuant to which Beihai Solid Waste shall provide industrial waste collection, transport, storage and disposal services to the Company and its subsidiaries. Pursuant to the renewal mechanism of such agreement, the Company and Beihai Solid Waste entered into an industrial waste service agreement (the “Previous Industrial Waste Service Agreement”) on 23 December 2021, for a term commencing on 1 January 2022 and ending on 31 December 2024. Pursuant to the renewal mechanism of such agreement, the Company and Beihai Solid Waste entered into an industrial waste service agreement (the “Renewed Industrial Waste Service Agreement”) on 18 October 2024, for a term commencing on 1 January 2025 and ending on 31 December 2027. The terms and conditions under the Renewed Industrial Waste Service Agreement are basically the same as those under the Previous Industrial Waste Service Agreement. As disclosed in the announcement of the Company dated 14 February 2025, the Renewed Industrial Waste Service Agreement was terminated by the Company and Beihai Solid Waste on 14 February 2025 following the entering into of the industrial waste treatment agreement between the Company and Binzhou Weiqiao Xinxing Industrial Co., Ltd. (“Weiqiao Xinxing Industrial”) on 14 February 2025.

The prices of industrial waste collection, transport, storage and disposal services provided by Beihai Solid Waste to the Company are approximately RMB896.23 per ton (VAT exclusive) for electrolytic cell residue and approximately RMB2,830.19 per ton (VAT exclusive) for combustible waste for the period from 1 January 2025 to 13 February 2025, which were determined with reference to the market prices of the same or comparable types of services provided by other independent third parties in the PRC. Beihai Solid Waste shall provide the evidence of such market prices to the Company upon the request of the Company. If the prices are otherwise mandatorily regulated by the PRC government, the mandatory governmental price shall be adopted as the service price under the Renewed Industrial Waste Service Agreement.

For the period from 1 January 2025 to 13 February 2025, the purchase of industrial waste services by the Company from Beihai Solid Waste under the Renewed Industrial Waste Service Agreement amounted to approximately RMB1,377,000, which was below the annual cap of approximately RMB25,019,000 (VAT exclusive) for this period (calculated based on the actual number of days based on to the annual cap for 2025).

Beihai Solid Waste is owned as to 51.00% by Weiqiao Chuangye Group and 49.00% by Binzhou Beihai Jingmai Industry Development Co., Ltd., an independent third party, while Weiqiao Chuangye Group is an associate of Mr. Zhang Bo, an executive Director (together with other members of his family, having interest in Weiqiao Chuangye Group). Therefore, Beihai Solid Waste is a connected person of the Company under the Listing Rules. Details of the above continuing connected transactions are disclosed in the announcements of the Company dated 31 January 2019, 23 December 2021 and 18 October 2024.

2. Provision of industrial waste treatment services to the Company by Weiqiao Xinxing Industrial

On 14 February 2025, the Company and Weiqiao Xinxing Industrial, a connected person of the Company, entered into an industrial waste treatment agreement for a term commencing on 14 February 2025 and ending on 31 December 2027 (both days inclusive), pursuant to which Weiqiao Xinxing Industrial and its subsidiaries (collectively, the “Weiqiao Xinxing Industrial Group”) shall provide industrial waste treatment services to the Company and its subsidiaries.

For the period from 14 February 2025 to 31 December 2025, the prices of the industrial waste treatment services provided by the Weiqiao Xinxing Industrial Group to the Group were determined with reference to the market prices of the same or comparable types of services provided by other independent third parties in proximity to Weiqiao Xinxing Industrial. Weiqiao Xinxing Industrial shall provide the evidence of such market prices to the Company upon the request of the Company. If the prices are otherwise mandatorily regulated by the PRC government, the mandatory governmental price shall be adopted as the service prices under the industrial waste treatment agreement.

For the period from 14 February 2025 to 31 December 2025, the purchase of industrial waste treatment services by the Group from the Weiqiao Xinxing Industrial Group under the industrial waste treatment agreement amounted to approximately RMB77,085,000, which was below the annual cap of RMB238,208,000 (VAT exclusive) for this period.

Weiqiao Xinxing Industrial is a wholly-owned subsidiary of Weiqiao Chuangye Group, while Weiqiao Chuangye Group is an associate of Mr. Zhang Bo, an executive Director (together with other members of his family, having interest in Weiqiao Chuangye Group). Therefore, Weiqiao Xinxing Industrial is a connected person of the Company under the Listing Rules. Details of the continuing connected transactions are disclosed in the announcement of the Company dated 14 February 2025.

3. Supply of water for production use by Weiqiao Chuangye Group to Shandong Hongqiao

On 31 January 2019, Shandong Hongqiao, an indirect subsidiary of the Company, and Weiqiao Chuangye Group, the Company’s connected person, entered into a production water supply agreement for a term commencing on 31 January 2019 and ending on 31 December 2021, pursuant to which Weiqiao Chuangye Group shall supply water to the production bases of Shandong Hongqiao located in Zouping City and Weiqiao Town for production uses. Pursuant to the renewal mechanism of such agreement, Shandong Hongqiao and Weiqiao Chuangye Group entered into a production water supply agreement (the “Previous Production Water Supply Agreement”) on 23 December 2021, for a term commencing on 1 January 2022 and ending on 31 December 2024. Pursuant to the renewal mechanism of such agreement, Shandong Hongqiao and Weiqiao Chuangye Group entered into a renewed production water supply agreement (the “Renewed Production Water Supply Agreement”) on 18 October 2024, for a term commencing on 1 January 2025 and ending on 31 December 2027 (both dates inclusive). The terms and conditions under the Renewed Production Water Supply Agreement are basically the same as those under the Previous Production Water Supply Agreement.

Report of the Directors

For the period from 1 January 2025 to 31 December 2025, the prices of production water supplied by Weiqiao Chuangye Group to the production bases of Shandong Hongqiao located in Zouping City and Weiqiao Town shall be approximately RMB1.99 per ton (VAT exclusive), which were determined with reference to the market prices of production water supplied by other independent third parties in Zouping City and Weiqiao Town. Weiqiao Chuangye Group shall provide the evidence of such market prices to Shandong Hongqiao upon the request of Shandong Hongqiao. If the price is otherwise mandatorily regulated by the PRC government, the mandatory governmental price shall be adopted as the price of supplying production water under the Renewed Production Water Supply Agreement.

During the Year, the purchase of production water under the Renewed Production Water Supply Agreement by Shandong Hongqiao (including its related party(ies)) from Weiqiao Chuangye Group amounted to approximately RMB31,615,000, which was below the annual cap of approximately RMB59,700,000 (VAT exclusive) for the year 2025.

Shandong Hongqiao is an indirect subsidiary of the Company. Weiqiao Chuangye Group is an associate of Mr. Zhang Bo, an executive Director (together with other members of his family, having interest in Weiqiao Chuangye Group). Therefore, Weiqiao Chuangye Group is a connected person of the Company under the Listing Rules. Details of the above continuing connected transactions are disclosed in the announcements of the Company dated 31 January 2019, 23 December 2021 and 18 October 2024.

4. Purchase of industrial goods from Weiqiao Xinxing Industrial by the Company

On 14 February 2025, the Company entered into an industrial goods procurement agreement with Weiqiao Xinxing Industrial, a connected person of the Company, for a term commencing on 14 February 2025 and ending on 31 December 2027 (both days inclusive), pursuant to which, the Weiqiao Xinxing Industrial Group shall sell industrial goods (i.e. electrolyte powder and carbon powder) to the Company and its subsidiaries.

For the period from 14 February 2025 to 31 December 2027, the price of the electrolyte powder provided by the Weiqiao Xinxing Industrial Group to the Group shall not be higher than those of the same products provided by the Weiqiao Xinxing Industrial Group to other independent third parties on normal commercial terms in the ordinary and usual course of business in the PRC. Weiqiao Xinxing Industrial shall provide evidence of the market prices of electrolyte powder to the Company upon the request of the Company.

For the period from 14 February 2025 to 31 December 2025, the price for carbon powder provided by the Weiqiao Xinxing Industrial Group to the Group shall be approximately RMB265.49 per ton (VAT exclusive), which was determined with reference to the market prices of the same or comparable types of products provided by other independent third parties in proximity to Weiqiao Xinxing Industrial. The Company may request Weiqiao Xinxing Industrial to provide evidence of the market prices of carbon powder.

If the prices are otherwise mandatorily regulated by the PRC government, the mandatory governmental price shall be adopted as the purchase prices under the industrial goods procurement agreement.

For the period from 14 February 2025 to 31 December 2025, the purchase of industrial goods by the Group from the Weiqiao Xinxing Industrial Group under the industrial goods procurement agreement amounted to approximately RMB9,613,000, which was below the annual cap of RMB13,938,000 (VAT exclusive) for this period.

Weiqiao Xinxing Industrial is a wholly-owned subsidiary of Weiqiao Chuangye Group, while Weiqiao Chuangye Group is an associate of Mr. Zhang Bo, an executive Director (together with other members of his family, having interest in Weiqiao Chuangye Group). Therefore, Weiqiao Xinxing Industrial is a connected person of the Company under the Listing Rules. Details of the continuing connected transactions are disclosed in the announcement of the Company dated 14 February 2025.

5. Entering into the supply and procurement framework agreement between the Company and Weiqiao Chuangye Group

On 16 June 2025, the Company entered into a supply and procurement framework agreement with Weiqiao Chuangye Group, a connected person of the Company, for a term commencing on 16 June 2025 and ending on 31 December 2027 (both days inclusive), pursuant to which, (i) Weiqiao Chuangye Group (and its subsidiaries and subordinate entities) shall supply resources and provide services to the Group (including but not limited to supplies and accessories, production water, tender agency service and aluminum scrap procurement services, etc.); and (ii) the Group shall supply resources (including but not limited to electricity, steam, and supplies and accessories, etc.) to Weiqiao Chuangye Group (and its subsidiaries and subordinate entities).

The Group and Weiqiao Chuangye Group may enter into specific contracts from time to time based on actual sale or procurement need (as the case may be). (i) The prices of resources and services provided by Weiqiao Chuangye Group (and its subsidiaries and subordinate entities) to the Group shall be determined with reference to the market prices of the same or comparable types of resources or services provided by other independent third parties in proximity to Weiqiao Chuangye Group (and its subsidiaries and subordinate entities). Weiqiao Chuangye Group shall provide the evidence of such market prices to the Company upon the request of the Company. In principle, the prices of the resources and services provided by Weiqiao Chuangye Group (and its subsidiaries and subordinate entities) to the Group shall not be higher than the then procurement market price for the same type of resources or services. If the price for a specific type of resources or services is otherwise mandatorily regulated by the PRC government, the price for such type of resources or services shall apply or be adjusted by the mandatory governmental price. (ii) The prices of resources provided to Weiqiao Chuangye Group (and its subsidiaries and subordinate entities) by the Group shall be determined with reference to the market prices of the same or comparable types of resources provided by other independent third parties in proximity to the Group, or if the market price is not available, the price at which such resources are sold by the Group to its independent third parties. Weiqiao Chuangye Group may request the Company to obtain the sale market prices (if available) from at least three other independent third parties in proximity to the Group and provide the evidence to Weiqiao Chuangye Group. In principle, the prices of the resources provided by the Group to Weiqiao Chuangye Group (and its subsidiaries and subordinate entities) shall not be lower than the then sale market price or the Group's selling price (as the case may be) for the same type of resources. If the price for a specific type of resources is otherwise mandatorily regulated by the PRC government, the price for such type of resources shall apply or be adjusted by the mandatory governmental price.

For the period from 16 June 2025 to 31 December 2025, the total supply of resources and provision of services by Weiqiao Chuangye Group to the Group under the supply and procurement framework agreement amounted to approximately RMB92,004,000, which was below the annual cap of RMB172,377,000 (VAT exclusive) for this period. For the period from 16 June 2025 to 31 December 2025, the total supply of resources by the Group to Weiqiao Chuangye Group under the supply and procurement framework agreement amounted to approximately RMB104,172,000, which was below the annual cap of RMB110,389,000 (VAT exclusive) for this period.

Weiqiao Chuangye Group is an associate of Mr. Zhang Bo, an executive Director (together with other members of his family, having interest in Weiqiao Chuangye Group). Therefore, Weiqiao Chuangye Group is a connected person of the Company under the Listing Rules. Details of the continuing connected transactions are disclosed in the announcement of the Company dated 16 June 2025.

Report of the Directors

6. Purchases of bauxite by Well Harvest Winning from Cita Mineral Investindo

On 3 December 2019, PT. Well Harvest Winning Alumina Refinery (“Well Harvest Winning”), a non-wholly owned subsidiary of the Company, and PT. Cita Mineral Investindo, Tbk. (“Cita Mineral Investindo”), a connected person of the Company, entered into a bauxite supply agreement (the “Bauxite Supply Agreement”) for a term commencing from the effective date up to 31 December 2033, pursuant to which Cita Mineral Investindo shall sell and deliver to Well Harvest Winning, or procure the sale and delivery to Well Harvest Winning of, and Well Harvest Winning shall buy from Cita Mineral Investindo, bauxite.

According to the Bauxite Supply Agreement, the benchmark selling price of the bauxite supplied by Cita Mineral Investindo to Well Harvest Winning is US\$31.50 per dry metric ton multiplied by the Indonesian Rupiah exchange rate, which is determined with reference to the prices charged by Cita Mineral Investindo to other independent third parties for supply of the same or comparable types of bauxite on normal commercial terms in its ordinary and usual course of business. The actual selling price of the bauxite shall be adjusted on the basis of the benchmark selling price according to the proportion of Al_2O_3 and SiO and the grain size of bauxite. The above pricing basis shall be reviewed annually on or before every anniversary of the Bauxite Supply Agreement and subject to mutual agreement by the parties, be amended to reflect any change in the inflation rate(s) published by the index(es) commonly used to determine inflation in commodity prices.

During the year, Well Harvest Winning purchased bauxite from Cita Mineral Investindo under the Bauxite Supply Agreement for approximately US\$145,256,000, which was below the annual cap of US\$155,295,000 for 2025.

Well Harvest Winning is a non-wholly-owned subsidiary of the Company and it is held as to 30% by Cita Mineral Investindo. As the relevant percentage ratios (as defined under Rule 14A.09 of the Listing Rules) in respect of Well Harvest Winning exceeded 10% for the year ended 31 December 2024, Well Harvest Winning ceased to be an insignificant subsidiary of the Company under Rule 14A.09 of the Listing Rules and therefore Cita Mineral Investindo could not meet the conditions for the exemption under Rule 14A.09 of the Listing Rules and became a connected person of the Company under the Listing Rules. Details of the above continuing connected transactions were disclosed in the announcements of the Company dated 3 December 2019 and 16 June 2025.

7. Disposal of assets by Beihai Xinhe to Lvxiang Resources

On 14 February 2025, Binzhou Beihai Xinhe New Material Co., Ltd. (濱州市北海信和新材料有限公司) (“Beihai Xinhe”), an indirect subsidiary of the Company, entered into an asset transfer agreement (the “Beihai Asset Transfer Agreement”) with Shandong Lvxiang Resources Comprehensive Utilisation Co., Ltd. (山東綠祥資源綜合利用有限公司) (“Lvxiang Resources”), a connected person of the Company, pursuant to which Beihai Xinhe shall sell and Lvxiang Resources shall acquire the assets owned by Beihai Xinhe in respect of the comprehensive use of red mud project (the “Beihai Target Assets”, which are mainly used for extracting iron from red mud).

Pursuant to the Beihai Asset Transfer Agreement, the total consideration payable by Lvxiang Resources to Beihai Xinhe for the transfer of the Beihai Target Assets is RMB3,369,999 (including tax), which is determined on normal commercial terms and arrived at after arm’s length negotiations based on the appraised value of the Beihai Target Assets as at 30 November 2024 according to the valuation report prepared by an independent valuer using the asset-based approach. Lvxiang Resources has paid the total consideration within 10 days of the date of the Beihai Asset Transfer Agreement.

Report of the Directors

Completion took place on the date on which the parties complete the handover procedure of the Beihai Target Assets. The parties have completed the handover procedure of the Beihai Target Assets within 10 days after the date of the Beihai Asset Transfer Agreement. Beihai Xinhe has provided all the documents, information, data and materials in relation to the Beihai Target Assets (including but not limited to the title proof, financial information and management documents) to Lvxiang Resources. From the completion date, Lvxiang Resources has become the sole legal owner of the Beihai Target Assets and is entitled to occupy, use, benefit from, and dispose of the Beihai Target Assets, and Beihai Xinhe no longer owns the Beihai Target Assets.

The asset transfer under the Beihai Asset Transfer Agreement does not involve the transfer of relevant claims or liabilities of Beihai Xinhe or the Beihai Target Assets, which shall still be enjoyed or borne by Beihai Xinhe, and not be changed, discharged or terminated by virtue of the transfer.

Beihai Xinhe is an indirect subsidiary of the Company. Lvxiang Resources is an indirect wholly-owned subsidiary of Weiqiao Chuangye Group, while Weiqiao Chuangye Group is an associate of Mr. Zhang Bo, an executive Director (together with other members of his family, having interest in Weiqiao Chuangye Group). Therefore, Lvxiang Resources is a connected person of the Company under the Listing Rules. Details of the connected transaction are disclosed in the announcement of the Company dated 14 February 2025.

8. Disposal of assets by Zhanhua Huihong to Lvzhi Resources

On 14 February 2025, Binzhou Zhanhua Huihong New Material Co., Ltd. (濱州市沾化區匯宏新材料有限公司) (“Zhanhua Huihong”), an indirect subsidiary of the Company, entered into an asset transfer agreement (the “Zhanhua Asset Transfer Agreement”) with Shandong Lvzhi Resources Comprehensive Utilisation Co., Ltd. (山東綠智資源綜合利用有限公司) (“Lvzhi Resources”), a connected person of the Company, pursuant to which Zhanhua Huihong shall sell and Lvzhi Resources shall acquire the assets owned by Zhanhua Huihong in respect of the comprehensive use of red mud project (the “Zhanhua Target Assets”, which are mainly used for extracting iron from red mud).

Pursuant to the Zhanhua Asset Transfer Agreement, the total consideration payable by Lvzhi Resources to Zhanhua Huihong for the transfer of the Zhanhua Target Assets is RMB31,805,479 (including tax), which is determined on normal commercial terms and arrived at after arm's length negotiations based on the appraised value of the Zhanhua Target Assets as at 30 November 2024 according to the valuation report prepared by an independent valuer using the asset-based approach. Lvzhi Resources has paid the total consideration within 10 days of the date of the Zhanhua Asset Transfer Agreement.

Completion took place on the date on which the parties complete the handover procedure of the Zhanhua Target Assets. The parties have completed the handover procedure of the Zhanhua Target Assets within 10 days after the date of the Zhanhua Asset Transfer Agreement. Zhanhua Huihong has provided all the documents, information, data and materials in relation to the Zhanhua Target Assets (including but not limited to the title proof, financial information and management documents) to Lvzhi Resources. From the completion date, Lvzhi Resources has become the sole legal owner of the Zhanhua Target Assets and is entitled to occupy, use, benefit from, and dispose of the Zhanhua Target Assets, and Zhanhua Huihong no longer owns the Zhanhua Target Assets.

Report of the Directors

The asset transfer under the Zhanhua Asset Transfer Agreement does not involve the transfer of relevant claims or liabilities of Zhanhua Huihong or the Zhanhua Target Assets, which shall still be enjoyed or borne by Zhanhua Huihong, and not be changed, discharged or terminated by virtue of the transfer.

Zhanhua Huihong is an indirect subsidiary of the Company. Lvzhi Resources is an indirect wholly-owned subsidiary of Weiqiao Chuangye Group, while Weiqiao Chuangye Group is an associate of Mr. Zhang Bo, an executive Director (together with other members of his family, having interest in Weiqiao Chuangye Group). Therefore, Lvzhi Resources is a connected person of the Company under the Listing Rules. Details of the connected transaction are disclosed in the announcement of the Company dated 14 February 2025.

9. Transfer of equity interest by Weiqiao Aluminum & Power to Weiqiao Renewable

On 14 February 2025, Weiqiao Aluminum & Power, an indirect subsidiary of the Company, entered into an equity transfer agreement (the “Equity Transfer Agreement”) with Shandong Weiqiao Renewable Co., Ltd. (山東魏橋再生資源有限公司) (“Weiqiao Renewable”), a connected person of the Company, pursuant to which Weiqiao Aluminum & Power shall sell and Weiqiao Renewable shall acquire the entire equity interest in Binzhou Hongtong Resources Comprehensive Utilisation Co., Ltd. (濱州市宏通資源綜合利用有限公司) (“Hongtong Resources”).

Hongtong Resources, being the target company, is a limited liability company incorporated under the laws of the PRC on 29 July 2016 and wholly-owned by Weiqiao Aluminum & Power prior to the transfer. It is principally engaged in processing of solid waste and comprehensive utilisation of solid waste.

Pursuant to the Equity Transfer Agreement, the total consideration payable by Weiqiao Renewable to Weiqiao Aluminum & Power for the transfer of the entire equity interest in Hongtong Resources is RMB62,000,000 (including tax), which is determined on normal commercial terms and arrived at after arm’s length negotiations based on the appraised value of the shareholders’ equity of Hongtong Resources as at 30 November 2024 according to the valuation conducted by an independent valuer using the asset-based approach. Weiqiao Renewable has paid the total consideration within 30 days of the date of the Equity Transfer Agreement.

The parties have attended and completed the industry and commerce registration procedures for alternation, in connection with the transfer of the equity interest in Hongtong Resources, within 30 days after the date of the Equity Transfer Agreement. Upon completion of the registration procedures for the alteration in respect of the transfer of the equity interest, Weiqiao Renewable holds 100% equity interest in Hongtong Resources and enjoys and bears all the rights and obligations in respect of such equity interest. Weiqiao Aluminum & Power ceased to hold such equity interest and ceased to enjoy and bear any rights and obligations in respect of such equity interest. During the period between the appraisal benchmark date and the completion date, the profit and loss of Hongtong Resources shall be attributed to Weiqiao Aluminum & Power.

Weiqiao Aluminum & Power is an indirect subsidiary of the Company. Weiqiao Renewable is an indirect wholly-owned subsidiary of Weiqiao Chuangye Group, while Weiqiao Chuangye Group is an associate of Mr. Zhang Bo, an executive Director (together with other members of his family, having interest in Weiqiao Chuangye Group). Therefore, Weiqiao Renewable is a connected person of the Company under the Listing Rules. Details of the connected transaction are disclosed in the announcement of the Company dated 14 February 2025.

Report of the Directors

Save as disclosed above, other transactions set out in Note 50 to the consolidated financial statements did not constitute continuing connected transactions or connected transactions of the Company under Chapter 14A of the Listing Rules, or were exempt from the reporting, announcement, annual review and independent shareholders' approval requirements. The Directors confirm that the Company has complied with the relevant disclosure requirements under Chapter 14A of the Listing Rules.

INDEPENDENT NON-EXECUTIVE DIRECTORS AND AUDITOR'S CONFIRMATION

The independent non-executive Directors have reviewed the above continuing connected transactions of the Group and have confirmed that these transactions have been entered into:

- (i) in the ordinary and usual course of business of the Group;
- (ii) on normal commercial terms or better; and
- (iii) according to the agreements governing them on terms that are fair and reasonable and in the interests of the Company's shareholders as a whole.

The auditors of the Company have provided a letter to the Board confirming that, for the year ended 31 December 2025, nothing has come to their attention that causes them to believe that the above continuing connected transactions:

- (i) have not been approved by the Board;
- (ii) were not, in all material respects, in accordance with the pricing policies of the Group (for those transactions involving the provision of goods or services by the Group);
- (iii) were not entered into, in all material respects, in accordance with the agreements governing such transactions; or
- (iv) have exceeded the respective annual caps.

RETIREMENT BENEFIT SCHEME

Details of the retirement benefit scheme of the Group are set out in note 51 to the consolidated financial statements.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding directors' securities transactions on terms no less exacting than the required standards as set out in the Model Code.

Having made specific enquiry of all the Directors, the Company confirmed that each of the Directors has complied with the required standards set out in the Model Code and the code of conduct of the Company regarding directors' securities transactions throughout the year ended 31 December 2025 and up to the date of this annual report.

Report of the Directors

COMPLIANCE WITH PROVISIONS OF THE CG CODE

The Company has applied the principles as set out in the CG Code. For the year ended 31 December 2025, the Company has complied with the code provisions of the CG Code, except for the following deviation:

Mr. Zhang Bo, the chief executive officer of the Company, concurrently serves as the chairman of the Board. Code Provision C.2.1 stipulates that the roles of chairman and chief executive should be separate and not be performed by the same individual. However, taking into consideration the abundant management experience and industry knowledge of Mr. Zhang Bo and the fact that he is very familiar with the business of the Group, the Board believes that it is beneficial to the continuous and stable development of the business of the Group for Mr. Zhang Bo to serve as both the chairman of the Board and the chief executive officer of the Company. Furthermore, the members of the Board also include qualified professionals and experienced individuals. The Board considers the current composition of the Board can ensure a balance of power and authority with the support of the Board committees and the vice chairwoman of the Board.

Save as disclosed above, there was no non-compliance of other code provisions of the CG Code by the Company for the year ended 31 December 2025.

SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the Directors, as at the latest practicable date prior to publication of this annual report, the Company had maintained the public float as approved by the Stock Exchange and as permitted under the Listing Rules.

DEED OF NON-COMPETITION

Each of the controlling shareholders has confirmed to the Company of his/her compliance with the deed of non-competition provided to the Company under the Deed of Non-Competition (as defined in the Company's prospectus dated 14 March 2011). The independent non-executive Directors have reviewed the status of compliance and confirmed that all the undertakings under the Deed of Non-Competition have been complied with by the controlling shareholders.

AUDIT COMMITTEE

The Company has established the audit committee (the "Audit Committee") of the Board in compliance with the Corporate Governance Code (the "CG Code") as set out in Appendix C1 to the Listing Rules for the purposes of reviewing and providing supervision over the Group's financial reporting process and internal controls. The Audit Committee is composed of three independent non-executive Directors. The Audit Committee meeting was held on 20 March 2026 to review the annual results and the consolidated financial statements of the Group for the year ended 31 December 2025. The Audit Committee considered that the financial results of the Group for the year ended 31 December 2025 were in compliance with the relevant accounting standards, rules and regulations and appropriate disclosures have been duly made.

In the course of its development, the Company has developed five ideological approaches and eight practical requirements, as the inclusive and unique China Hongqiao's management philosophy, and have become an important source of power in promoting the scientific and harmonious sustainable development of the enterprise. While focusing on production efficiency, China Hongqiao insists on the management philosophy of "Happy Work, Blissful Life", which enriches the spare time of the employees and enhances their overall quality, boosting cohesion and creativity for the long-term development of the enterprise.

CORPORATE GOVERNANCE

China Hongqiao is convinced that good corporate governance can create values for its shareholders and the Corporate as a whole. The Board is committed to strengthening its corporate governance to ensure that the Company conducts its business in an honest, transparent and responsible manner and to promoting the development of the Company and the interest of the shareholders.

The Company has applied the principles as set out in the CG Code.

For the year ended 31 December 2025, the Company has complied with the code provisions of the CG Code, except for the following deviation:

Code Provision C.2.1 of Part 2 of the CG Code stipulates that the roles of chairman and chief executive should be separate and not be performed by the same individual. However, taking into consideration the abundant management experience and industry knowledge of Mr. Zhang Bo and the fact that he is very familiar with the business of the Group, the Board believes that it is beneficial to the continuous and stable development of the business of the Group for Mr. Zhang Bo to serve as both the chairman of the Board and the chief executive officer of the Company. Furthermore, the members of the Board also include qualified professionals and experienced individuals. The Board considers the current composition of the Board can ensure a balance of power and authority with the support of the Board committees and the vice chairman of the Board.

Save as disclosed above, there was no non-compliance of other code provisions of the CG Code by the Company for the year ended 31 December 2025.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding directors' securities transactions on terms no less exacting than the required standards as set out in the Model Code.

Having made specific enquiry of all the Directors, the Company confirmed that each of the Directors has complied with the required standards set out in the Model Code and the code of conduct of the Company regarding directors' securities transactions throughout the year ended 31 December 2025 and up to the date of this annual report.

Mr. Tu Yikai and Mr. Zhang Hao obtained the legal opinions as described in Rule 3.09D of the Listing Rules on 4 August 2025. Mr. Tu Yikai and Mr. Zhang Hao have separately confirmed that they understand their responsibilities as directors of the Company.

Duties of the Board

The Board is responsible for leading, controlling and overseeing the Group's business strategic decisions and performance. The Board has established subordinate Board committees and has delegated to these Board committees various responsibilities as set out in their respective terms of reference. All Directors have carried out their duties in good faith and in compliance with the standards of applicable laws and regulations, and have acted in the interests of the Company and its shareholders at all times.

Corporate Governance Report

The Board is also responsible for the corporate governance duties contained in Code Provision A.2.1 of Part 2 of the CG Code, including but not limited to:

- (i) to develop and review the Company's policies and practices on corporate governance and make recommendations to the Board;
- (ii) to review and monitor the training and continuous professional development of Directors and senior management;
- (iii) to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements;
- (iv) to develop, review and monitor the code of conduct and compliance manual applicable to employees and Directors;
and
- (v) to review the Company's compliance with the CG Code and disclosure in the corporate governance report.

The Board has performed the above corporate governance duties for the year ended 31 December 2025. The Board has reviewed the Company's compliance with the CG Code for the year ended 31 December 2025 and this corporate governance report.

Delegation of management function of the Board

The Board takes responsibility for all major matters of the Company, including the approval and monitoring of all policy matters, overall strategies and budgets, internal control and risk management systems, material transactions (in particular those that may involve conflicts of interest), financial statements and other significant financial and operational matters.

All Directors have full and timely access to all relevant statements as well as the advice and services provided by the company secretary of the Company, with a view to ensure that the Board procedures and all applicable rules and regulations are followed. Each Director is normally able to seek independent professional advice in appropriate circumstances at the Company's expense upon making request to the Board.

The day-to-day management, administration and operation of the Company are delegated to the chief executive officer and the senior management of the Company. The delegated functions and work tasks are periodically reviewed by the Board.

Responsibilities of the Management

The chief executive officer of the Company shall be accountable to the Board and responsible for managing the production and business operations of the Company and organising the implementation of resolutions of the Board; organising the implementation of the Company's annual business plans and investment plans; drafting the plan for the internal management setup of the Company; drafting the basic management system of the Company; formulating basic rules of the Company; proposing appointment or dismissal of the vice presidents and chief financial officer of the Company; appointing or dismissing executives other than those to be appointed or dismissed by the Board; and exercising other functions and powers conferred in the Articles of Association and by the Board.

The company secretary of the Company shall be accountable to the Board and responsible for ensuring the compliance of the Board with all applicable laws and regulations. The company secretary of the Company shall also keep minutes of general meetings and meetings of the Board and its committees.

Corporate Governance Report

Appointment and re-election of Directors

The procedures and process of appointment, re-election and removal of Directors are set out in the Articles of Association. The nomination committee of the Board (the "Nomination Committee") is responsible for reviewing the Board composition, developing and formulating the relevant procedures for nomination and appointment of Directors, monitoring the appointment of Directors and assessing the independence of independent non-executive Directors.

Each of the Directors has entered into a service contract with the Company for a period of three years. Unless terminated by not less than one month's notice in writing served by either the Directors or the Company, the contract will be automatically renewed until terminated in accordance with the terms of the service contract. The appointments of the Directors are subject to the provisions of retirement and rotation of Directors under the Articles of Association. At the 2024 annual general meeting of the Company on 7 May 2025, Mr. Zhang Bo, Ms. Zheng Shuliang, Ms. Zhang Ruilian, Ms. Wong Yuting, Mr. Yang Congsen, Mr. Zhang Jinglei, Mr. Tian Mingming (Mr. Zhang Hao as his alternate), Ms. Sun Dongdong, Mr. Wen Xianjun, Mr. Han Benwen, Mr. Dong Xinyi and Ms. Fu Yulin were re-elected as Directors.

In accordance with the Articles of Association, all the Directors are subject to retirement by rotation at least once every three years. Any Director appointed by the Directors to fill a casual vacancy on the Board or as an addition to the existing Board shall hold office until the next following annual general meeting of the Company and shall then be eligible for re-election.

Induction training and development

The Company provides induction training programme for all new Directors which, taking into account their experience and background, is designed to enhance their knowledge and understanding of the Group's culture and operations as well as their relevant roles and responsibilities.

Development and training of Directors is an ongoing process so that they can perform their duties appropriately. All Directors are encouraged to attend relevant training courses at the Company's expense. From 1 January 2025 to 31 December 2025, all Directors have been required to provide the Company with their training records, and relevant records have been maintained by the company secretary of the Company. All Directors, namely, Mr. Zhang Bo, Ms. Zheng Shuliang, Ms. Zhang Ruilian, Ms. Wong Yuting, Mr. Yang Congsen, Mr. Zhang Jinglei, Mr. Tian Mingming (Mr. Zhang Hao as his alternate), Mr. Tu Yikai (Mr. Zhang Hao as his alternate), Ms. Sun Dongdong, Mr. Wen Xianjun, Mr. Han Benwen, Mr. Dong Xinyi, Ms. Fu Yulin and the company secretary of the Company Ms. Zhang Yuexia attended the training courses or continuing study programmes in relation to corporate governance and management to further enhance their knowledge and skills.

Performance evaluation

The Board recognises the importance and benefits of conducting regular evaluations of performance of the Group to ensure improvement in its functioning. During the year 2025, the Board had conducted the evaluation of its performance.

Corporate Governance Report

Mr. Tu Yikai attended 2 Board meetings in person, and Mr. Zhang Hao didn't attend any Board meeting in 2025 as an alternate Director to Mr. Tu Yikai.

During the year ended 31 December 2025, the chairman of the Board held one meeting with independent non-executive Directors without the presence of other Directors.

Corporate Governance Report

PRACTICES AND CONDUCT OF MEETINGS

Annual meeting schedules and draft agenda of each meeting are normally made available to Directors in advance.

Notices of regular Board meetings are served to all Directors at least 14 days before the meetings. For other Board and committee meetings, a reasonable notice is generally given. Board papers together with all appropriate, complete and reliable information are sent to all Directors at least 3 days before each Board meeting or committee meeting to keep the Directors apprised of the latest developments, financial position of the Company and to enable them to make informed decisions. Each Director also has separate and independent access to the senior management whenever necessary.

The senior management of the Company including chief executive officer and chief financial officer attend all regular Board meetings and where necessary, other Board and committee meetings to advise on business developments, financial and accounting matters, statutory and regulatory compliance, corporate governance and other major aspects of the Company. The company secretary of the Company is responsible for taking and keeping minutes of all Board meetings and committee meetings. Draft minutes are normally circulated to Directors for comment within a reasonable time after each meeting, and the final version is open for Directors' inspection.

The Articles of Association contain provisions requiring Directors to abstain from voting and not to be counted in the quorum at meetings for approving transactions in which such Directors or any of their close associates have a material interest.

INDEPENDENT NON-EXECUTIVE DIRECTORS

Since the listing date on 24 March 2011, the Board at all times met the requirements of the Listing Rules relating to the appointment of at least three independent non-executive Directors with at least one independent non-executive Director possessing appropriate professional qualifications, or accounting or related financial management expertise.

The Company has received annual confirmation from each independent non-executive Director of his independence pursuant to the requirements of the Listing Rules. The Company considers all independent non-executive Directors to be independent in accordance with the independence guidelines set out in the Listing Rules.

With reference to the guidelines as set out in Rule 3.13 of the Listing Rules, the Company confirms the independence of all the independent non-executive Directors.

The Company has put in place mechanisms to ensure that the Board has access to independent advice and information. This is achieved by the Directors having access to external independent professional advice such as legal advisers and auditors, and by all independent non-executive Directors attending all Board meetings and relevant committee meetings held during the reporting period.

The Board reviews the implementation and effectiveness of the above mechanism on an annual basis.

Corporate Governance Report

TERMS OF OFFICE OF NON-EXECUTIVE DIRECTORS

Each of the non-executive Directors and independent non-executive Directors has entered into a service contract with the Company for a term of three years with effect from their respective dates of appointment, unless terminated by not less than one month's notice in writing served by either the Directors or the Company. The relevant appointments are subject to the provisions of retirement and rotation of Directors under the Articles of Association.

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

The chairman and chief executive officer of the Company is Mr. Zhang Bo. The chairman provides leadership for the Board, and is responsible for ensuring that the Board works effectively and performs its responsibilities, and that all key and appropriate issues are discussed by it in a timely manner. He is also responsible for the strategic management of the Group and for formulating its overall corporate direction and focus. The chief executive officer is responsible for the management of Company business and the Group's overall operation. The chairman and chief executive officer shall have clearly defined roles and duties as detailed in the Company's code of corporate governance.

Though Code Provision C.2.1 of Part 2 of the CG Code stipulates that the duties of the chairman and chief executive officer should be differentiated and shall not be held by the same person, Mr. Zhang Bo is both chairman and chief executive officer of the Company. The Board is of the opinion that this arrangement will not affect the balance of power and duties between the Board and the management. The Board comprises of highly experienced and talented members who meet regularly to discuss matters affecting the Company's operations. Through the Board's operation, a balance between power and duties can be maintained. The Board believes that this arrangement facilitates stable and consistent leadership and enables the Company to make and implement decisions in an efficient and effective manner. The Board believes that the appointment of Mr. Zhang Bo as chairman and chief executive officer will benefit the business development and management of the Company and improve coordination between the Board and the senior management.

REMUNERATION OF DIRECTORS AND SENIOR MANAGEMENT

The Company has established a formal and transparent procedure for formulating policies on remuneration of the Directors and the senior management of the Group. Details of the remuneration of each of the Directors, chief executive and five highest paid employees for the year ended 31 December 2025 are set out in notes 12 and 13 to the consolidated financial statements.

Nomination Policy and Diversity Policy of the Board

The procedures for nomination, appointment, re-election and dismissal of Directors are set out in the Articles of Association. After performing due diligence and taking into consideration of the qualification and biography of the director candidates, the Nomination Committee will make recommendation to the Board for consideration and approval. Where vacancies on the Board exist, the Nomination Committee will carry out the selection process by making reference to the gender, age, cultural and educational background, skills, experience, professional knowledge, personal integrity and time commitments and independence of the independent non-executive Director, the Company's needs and other relevant statutory requirements and regulations.

The Company has adopted board diversity policy according to Rule 13.92 of the Listing Rules. The Nomination Committee reviews the structure, size and diversity of the composition of the Board regularly to ensure that the Board has a balance of expertise, skills and experience appropriate for the requirements of the business of the Company.

Policy Summary

All appointments to the Board are made on the basis of merit, with due regard to the benefits of diversity on the Board, including but not limited to gender diversity, in considering candidates on appropriate terms. The Company considers the level of diversity at Board level to be an important factor in maintaining a competitive advantage and in attracting, retaining and motivating staff from as wide a pool of talent as possible. The Company should actively ensure a balance of skills, experience and diversity of opinion among its Board members to support the execution of its business strategy.

Measurable Targets

- (i) the proportion of female members should be maintained at 30% or more. It is expected that the proportion of women on the Board will gradually increase as more women take up senior positions in the economy, leading to an increase in the number of suitable candidates for directorship;
- (ii) the proportion of members aged 50 or below should be maintained at 40% or above. A Board of different ages and length of service will promote diversity in Board composition and reduce the risk of reappointment; and
- (iii) at least one member with professional accounting qualifications and one member with professional legal qualifications to enable the Board to match the different skills required by the Company's business.

Corporate Governance Report

Talent Development

The Company provides regular on-the-job training to its employees to ensure that they have a thorough understanding of the Company's business and policies and their roles and responsibilities, and to fill any gaps in their knowledge.

The Company also provides training for staff with special potential to equip them with the attributes and competencies required by the Board in the future, with a view to developing a more experienced and skilled workforce to enable them to progress to directorships in time to meet the Company's future strategic needs and operating environment.

Monitoring and Reporting

The Nomination Committee will annually discuss and agree on all measurable objectives to achieve Board diversity and recommend to the Board the adoption of such objectives. Based on the objectives set, the Company will annually assess the diversity status of the Board, including its gender representation, and its progress in achieving its diversity objectives.

The Nomination Committee will monitor the implementation of this policy and will report annually in the Corporate Governance Report on the composition of the Board in terms of diversity (including gender, ethnicity, age and length of service) and progress against the objectives set in this policy.

The Nomination Committee will review this policy as and when appropriate to ensure that it is effective. The Nomination Committee will discuss any changes that may be required and make recommendations of changes to the Board for its approval.

As at the date of this annual report, the Board consisted of twelve Directors, including five female Directors as well as Directors who are professionals in law and accounting, and the Board has achieved diversity in its membership in terms of gender, professional background and skill, etc.

At the end of 2025, the Group had approximately 51,234 employees in total (including senior management), of whom approximately 85% were male and approximately 15% were female. The Company considers that it has achieved the stated objective of gender diversity among all employees, including senior management.

DIRECTORS' RESPONSIBILITIES FOR FINANCIAL REPORTING

The Directors acknowledge their responsibility for preparing the financial statements of the Company for the year ended 31 December 2025.

The Board is responsible for presenting a balanced, clear and understandable assessment of the Company's performance in annual and interim reports and other financial disclosures required by the Listing Rules.

The senior management of the Company has provided sufficient explanation and information to the Board as necessary to enable the Board to make an informed assessment of the financial and other information of the Company put before it for approval.

The Directors, having made appropriate enquiries, are not aware of any material uncertainties relating to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

EXTERNAL AUDITOR

The external auditors are responsible for presenting independent opinions on the financial statements of the Company according to the results of their auditing work, and reporting to the Company on the same.

The remuneration paid to the external auditors of the Company in respect of audit services and non-audit services for the year ended 31 December 2025 amounted to RMB4,200,000 (VAT inclusive) and RMB1,600,000, respectively. For non-audit services (including tax audit, ESG report review and internal control review services), which were performed by an affiliate firm of SHINEWING HK, the remuneration was RMB391,501.

Corporate Governance Report

RISK MANAGEMENT AND INTERNAL CONTROL

The Board is responsible for the effectiveness of the risk management and internal control system of the Company, and makes annual reviews on the effectiveness of such systems. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss. The Company has established its internal audit functions. Relevant procedures have been designed for safeguarding assets against unauthorised use or disposal, controlling excessive capital expenditure, maintaining proper accounting records, and the reliability of financial information used in the operations or for publication. The Audit Committee is responsible for the internal control. Qualified management personnel of the Company will maintain and monitor the internal control system on a going concern basis.

The Group has in place a relatively comprehensive risk management and internal control system and clearly defines the responsibility and authority of each business unit, department and management member. It implements the reporting and approval procedures and accountability system of each business segment to realise compliance in operations and monitor and control each segment effectively. Each business unit identifies risks that may hinder the realisation of business objectives and coordinates with the management members to analyse and evaluate the materiality of such risks. The finance department is responsible for monitoring and controlling financial risks and making recommendations on potential risks identified during the approval procedures. Other management departments identify and make judgment on various circumstances as well as monitor and assess potential risk factors within the scope of their responsibility and authority. If necessary, they can consult professionals at any time and report issues to the Board according to internal management procedures. Before making any material decisions, the Board has to make proper assessment on the potential risks involved and the level of risks.

(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of China Hongqiao Group Limited (the “Company”) and its subsidiaries (hereinafter collectively referred to as the “Group”) set out on pages 75 to 200, which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards issued by the International Accounting Standards Board (the “IASB”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “Code”), as applicable to audits of consolidated financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditor's Report

KEY AUDIT MATTERS (Continued)

Key audit matters identified in our audit are summarised as follows:

- Impairment assessment of property, plant and equipment;
- Impairment assessment of interest in Zouping Binneng Energy Technology Co., Ltd* (“Binneng Energy”) 鄒平濱能能源科技有限公司; and
- Impairment assessment of loans to associates.

* The English translation is for reference only

IMPAIRMENT ASSESSMENT OF PROPERTY, PLANT AND EQUIPMENT

Refer to note 16 to the consolidated financial statements and the accounting policies on page 110.

The key audit matter

As at 31 December 2025, the carrying amount of property, plant and equipment amounted to approximately RMB78,986,121,000. Management assesses property, plant and equipment for potential impairment whenever there are indications that the carrying value may not be recoverable. An impairment loss on property, plant and equipment of approximately RMB416,736,000 was recognised for the year ended 31 December 2025.

We have identified the impairment assessment of the property, plant and equipment as a key audit matter since the carrying amount of property, plant and equipment was significant to the consolidated financial statements and significant judgments and estimates have been used by the management and valuation specialist in determining the recoverable amount of property, plant and equipment.

How the matter was addressed in our audit

We understood the management methodology and basis applied in calculating the recoverable amount.

We evaluated the recoverable amount calculations of the relevant assets prepared by the management by 1) obtaining external valuation reports for those assets where their recoverable amounts are determined by higher of value in use and fair value less cost of disposal; 2) considering the objectivity, independence and competency of the valuation specialist; 3) assessing the appropriateness of the valuation methodologies and challenged the reasonableness of methodologies and the use of market data and assumptions applied in determining the value in use and fair value less cost of disposal and 4) checking the mathematical accuracy of the impairment models.

Independent Auditor's Report

IMPAIRMENT ASSESSMENT OF INTEREST IN BINNENG ENERGY

Refer to note 20 to the consolidated financial statements and the accounting policies on page 89.

The key audit matter

As at 31 December 2025, the carrying amount of the Group's interest in Binneng Energy amounted to approximately RMB6,287,249,000.

We have identified the impairment assessment of interest in Binneng Energy as a key audit matter since the assessment on the impairment involves significant judgements and estimates made by the management.

How the matter was addressed in our audit

Our procedures were designed to assess the management's process for identifying the existence of impairment indicators for the interest in Binneng Energy and to challenge the reasonableness of the recoverable amount, including projections of cash flows, discount rate and growth rates applied, and future prospects of Binneng Energy.

In order to address this matter in our audit, we obtained management's impairment assessment and reviewed the future cash flow forecast prepared by management. We also challenged the appropriateness of the assumptions, including the sales growth rates and gross margin, against latest market expectations.

We also challenged the discount rates employed in the calculation of value-in-use by reviewing its basis of calculation and comparing its input data to market sources.

IMPAIRMENT ASSESSMENT OF LOANS TO ASSOCIATES

Refer to notes 20 and 21 to the consolidated financial statements and the accounting policies on pages 89, 105 to 107.

The key audit matter

As at 31 December 2025, the Group had loans provided to associates at carrying amount of RMB12,020,708,000, of which RMB10,020,708,000 is included in interests in associates.

The loans provided to associates is assessed for impairment individually and involves significant management judgment in assessing the expected credit loss ("ECL"), based on the historical credit loss experience, forward-looking factors specific to the associate and economic environment and the net realisable value of the underlying collateral received.

We have identified the impairment assessment of loans to associates as a key audit matter since the assessment on the impairment involves significant judgements and estimates made by the management.

How the matter was addressed in our audit

Our procedures were designed to review the management's assessment of the ECL model adopted for the loss allowance on loans to associates.

In order to address this matter in our audit, we obtained management's impairment assessment and valuation report prepared by their valuation specialist and challenged the reasonableness of input data used by the management with reference to the historical credit loss experience, financial information of associates, recoverable amount of the collateral, the latest available general economic data and forward looking information.

Independent Auditor's Report

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS OF THE COMPANY AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee are responsible for overseeing the Group's financial reporting process.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion, solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Company.
- Conclude on the appropriateness of the Company's directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purpose of the group audit. We remain solely responsible for our audit opinion.

Independent Auditor's Report

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Kwan Chi Fung.

1. CORPORATE INFORMATION

The Company is a limited liability company incorporated in the Cayman Islands as an exempted company under the Companies Law of Cayman Islands and its shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). Its parent and immediate holding company is China Hongqiao Holdings Limited, a company incorporated in the British Virgin Islands (“BVI”). The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information section to the annual report.

The Company acts as an investment holding company, and the principal activities of its subsidiaries (together with the Company, referred to as the “Group”) are set out in note 54.

The consolidated financial statements are presented in Renminbi (“RMB”), which is also the functional currency of the Company and its subsidiaries in the People’s Republic of China (“PRC”) and Hong Kong Special Administrative Region of the PRC (“Hong Kong”). The functional currency of subsidiaries established in Republic of Indonesia, Republic of Singapore and the Republic of Guinea is denoted in United States Dollar (“US\$”).

2. APPLICATION OF AMENDMENTS TO AN IFRS ACCOUNTING STANDARD

Application of amendments to an IFRS Accounting Standard

In the current year, the Group has applied, for the first time, the following amendments to IFRS Accounting Standard issued by the International Accounting Standards Board (the “IASB”) which are effective for the Group’s financial year beginning on 1 January 2025:

Amendments to IAS 21	Lack of Exchangeability
----------------------	-------------------------

In addition, the Group applied the agenda decisions of the IFRS Interpretations Committee of the IASB which are relevant to the Group.

The application of the amendments to IAS 21 in the current year has had no material impact on the Group’s financial performance and positions for the current and prior year and/or on the disclosures set out in these consolidated financial statements.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

2. APPLICATION OF AMENDMENTS TO AN IFRS ACCOUNTING STANDARD (Continued)

New and amendments to IFRS Accounting Standards issued but not yet effective

The Group has not early applied the following new and amendments to IFRS Accounting Standards that have been issued but are not yet effective:

IFRS 18	Presentation and Disclosure in Financial Statements ²
Amendments to IFRS 9 and IFRS 7	Amendments to the Classification and Measurement of Financial Instruments ¹
Amendments to IFRS 9 and IFRS 7	Contracts Referencing Nature-dependent Electricity ¹
Amendments to IFRS Accounting Standards	Annual Improvements to IFRS Accounting Standards – Volume 11 ¹
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ³
Amendments to IAS 21	Translation to a Hyperinflationary Presentation Currency ²

¹ Effective for annual periods beginning on or after 1 January 2026.

² Effective for annual periods beginning on or after 1 January 2027.

³ Effective for annual periods beginning on or after a date to be determined.

The directors of the Company anticipate that, except as described below, the application of other new and amendments to IFRS Accounting Standards will have no material impact on the results and the financial position of the Group.

IFRS 18 – Presentation and Disclosure in Financial Statements

IFRS 18 sets out requirements on presentation and disclosures in financial statements and will replace IAS 1 Presentation of Financial Statements. IFRS 18 introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management-defined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. Minor amendments to IAS 7 “Statement of Cash Flows” and IAS 33 “Earnings per Share” are also made.

IFRS 18, and the consequential amendments to other IFRS Accounting Standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted.

The application of IFRS 18 is not expected to have material impact on the financial position of the Group but is expected to affect the presentation of the statement of profit or loss and other comprehensive income and statement of cash flows and disclosures in the future financial statements. The Group will continue to assess the impact of IFRS 18 on the consolidated financial statements of the Group.

Notes to the Consolidated Financial Statements

3. MATERIAL ACCOUNTING POLICY INFORMATION

The consolidated financial statements have been prepared in accordance with IFRS Accounting Standards issued by the IASB. In addition, the consolidated financial statements include the applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values, at the end of each reporting period.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique. Details of fair value measurement are explained in the accounting policies set out below.

The material accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. If a subsidiary prepares its financial statements using accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that subsidiary's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

Control is achieved where the Group has: (i) the power over the investee; (ii) exposure, or rights, to variable returns from its involvement with the investee; and (iii) the ability to use its power over the investee to affect the amount of the Group's returns.

When the Company has less than a majority of the voting rights of an investee, it considers that it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements;
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Basis of consolidation (Continued)

The Group reassess whether it controls an investee if facts and circumstances indicate that there are changes to one or more of these elements of control stated above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and cease when the Group loses control of the subsidiary.

Income and expenses of subsidiaries are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income of subsidiaries are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group are eliminated in full on consolidation.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in capital reserve and attributed to owners of the Company.

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interests (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. The amounts previously recognised in other comprehensive income and accumulated in equity are accounted for as if the Group had directly disposed of the related assets and liabilities (i.e. reclassified to profit or loss or transferred directly to retained earnings as specified by applicable IFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9 Financial Instruments or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Business combinations or asset acquisitions

The Group can elect to apply an optional concentration test, on a transaction-by-transaction basis, that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets. The gross assets under assessment exclude cash and cash equivalents, deferred tax assets, and goodwill resulting from the effects of deferred tax liabilities. If the concentration test is met, the set of activities and assets is determined not to be a business and no further assessment is needed.

Assets acquisitions

When the Group acquires a group of assets and liabilities that do not constitute a business, the Group identifies and recognises the individual identifiable assets acquired and liabilities assumed by allocating the purchase price first to financial assets and financial liabilities at the respective fair values, the remaining balance of the purchase price is then allocated to the other identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such a transaction does not give rise to goodwill or bargain purchase gain.

Business combinations

Acquisition of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition related costs incurred to effect a business combination are recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to the acquiree's employee benefit arrangements are recognised and measured in accordance with IAS 12 *Income Taxes* and HKAS 19 *Employee Benefits*, respectively;
- liabilities or equity instruments related to share-based payment arrangement of the acquiree or the replacement of the acquiree's share-based payment transactions with the share-based payment transactions of the Group are measured in accordance with IFRS 2 *Share-based Payment* at the acquisition date (see the accounting policy below);
- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard; and
- lease liabilities are recognised and measured at the present value of the remaining lease payments as if the acquired lease was a new lease at the acquisition date, except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are recognised and measured at an amount equal to the lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Business combinations or asset acquisitions (Continued)

Business combinations (Continued)

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the Group's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the aggregate of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests, unless as required by another standards, are measured at acquisition-date fair value except for non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are initially measured either at fair value or at the present ownership instruments' proportionate share in the recognised amounts of the acquiree's identifiable net assets on a transaction-by-transaction basis.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss or other comprehensive income, as appropriate. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are recognised in other comprehensive income and measured under IFRS 9 would be accounted for on the same basis as would be required if the Group had disposed directly of the previously held equity interest.

Goodwill

Goodwill arising from a business combination is carried at cost less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units ("CGUs") (or groups of CGUs) that is expected to benefit from the synergies of the combination.

A CGU (or groups of CGUs) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the CGU (or groups of CGUs) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro rata basis based on the carrying amount of each asset in the unit (or groups of CGUs). Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant CGU, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Interests in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control of those policies.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method. Under the equity method, interests in associates are initially recognised at cost and adjusted thereafter to recognise the Group's share of the profit or loss and changes in the other comprehensive income of the associates are recognised in profit or loss and other comprehensive income respectively after the date of acquisition. If the Group's share of losses of an associate equals or exceeds its interest in the associate, which includes any long-term interests that, in substance, form part of the Group's net investment in the associate, the Group discontinues recognising its share of further losses. Additional losses are provided for, and a liability is recognised, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

If an associate uses accounting policies other than those of the Group for like transactions and events in similar circumstances, adjustments are made to make the associate's accounting policies conform to those of the Group when the associate's financial statements are used by the Group in applying the equity method.

An interest in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment, any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets and liabilities of the associate is recognised as goodwill and is included in the carrying amount of the investment.

Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, after reassessment, is recognised in profit or loss in the period in which the investment is acquired.

The requirements of IAS 36 *Impairment of Assets* are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's interest in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount (higher of value-in-use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised to the extent that the recoverable amount of the investment subsequently increases.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Interests in associates (Continued)

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate. When the Group retains an interest in the former associate and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with IFRS 9. The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the associate is disposed of.

When the Group's ownership interest in an associate is reduced, but the Group continues to apply the equity method, the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest is reclassified to profit or loss if that gain or loss would be required to be reclassified to profit or loss on the disposal of the related assets or liabilities.

Gains and losses resulting from transactions between the Group and its associate are recognised in consolidated financial statements only to the extent of unrelated investors' interests in the associate that are unrelated to the Group. The Group's share in the associate's gains or losses resulting from these transactions is eliminated.

The Group applies IFRS 9, including the impairment requirements, to long-term interests in an associate to which the equity method is not applied and which form part of the net investment in the investee. In applying IFRS 9 to long-term interests, the Group does not take into account adjustments to their carrying amount required by IAS 28 (i.e. adjustments to the carrying amount of long-term interests arising from the allocation of losses of the investee or assessment of impairment in accordance with IAS 28).

Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Such classification requires the asset must be available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets and disposal groups classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell.

Revenue from contracts with customers

Revenue is recognised to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Group uses a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation.

The Group recognised revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to customers.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates and enhances an asset that the customer controls as the asset is created and enhanced; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct goods or service.

Revenue is measured based on the consideration to which the Group expects to be entitled in a contract with a customer, excludes amounts collected on behalf of third parties, discounts and sales related taxes.

Revenue from contracts with customers (Continued)

Contract liabilities

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration from the customer. A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

The Group recognised revenue from the following major sources:

- sales of aluminum products
- steam supply income

Sales of goods

Revenue from sales of aluminum products is recognised at a point in time when the control of the goods is transferred to the customers. Control of the goods is considered transferred to customers at the time of delivery.

Revenue from sales of steam are recognised at a point in time and based on steam consumption derived from meter readings.

Leasing

Definition of a lease

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Leasing (Continued)

The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less from the commencement date and do not contain a purchase option) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Lease liabilities

At the commencement date, the Group measures lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted by using the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise fixed lease payments (including in-substance fixed payments).

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Lease liability is remeasured (and with a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using revised discount rate.
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Leasing (Continued)

The Group as lessee (Continued)

Right-of-use assets

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement date and any initial direct costs, less lease incentives received.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. They are depreciated over the shorter period of lease term and useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The Group presents right-of-use assets as a separate line in the consolidated statement of financial position.

The Group applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss.

The Group as lessor

The Group enters into lease agreements as a lessor with respect of its investment properties. Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing at the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise, except for exchange differences arising on a monetary item that forms part of the net investment in a foreign operation, in which case, such exchange differences are recognised in other comprehensive income and accumulated in equity and will be reclassified from equity to profit or loss on disposal of the foreign operation.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Foreign currencies (Continued)

Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for exchange differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in other comprehensive income, in which cases, the exchange differences are also recognised directly in other comprehensive income.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. RMB) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve (attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation or a disposal involving loss of significant influence over an associate that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss. In addition, in relation to a partial disposal of a subsidiary that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates that do not result in the Group losing significant influence), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

Goodwill and fair value adjustments on identifiable assets acquired arising on an acquisition of a foreign operation are treated as assets and liabilities of that foreign operation and retranslated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

Any specific borrowing remains outstanding after the related asset is ready for its intended use or sale is included in the general pool for calculation of capitalisation rate on general borrowings.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

Retirement benefits costs

Payments to defined contribution plans, state-managed retirement benefit schemes and Mandatory Provident Fund Scheme are recognised as an expense when employees have rendered service entitling them to the contributions.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before taxation as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Taxation (Continued)

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of the transaction does not give rise to equal taxable and deductible temporary differences.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle current tax liabilities and assets on a net basis.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 requirements to the lease liabilities and the related assets separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised and a deferred tax liability for all taxable temporary differences.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Property, plant and equipment

Property, plant and equipment other than construction in progress are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Ownership interests in leasehold land and buildings

When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition. To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land is presented as “right-of-use assets” in the consolidated statement of financial position. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Depreciation is recognised so as to allocate the cost of items of property, plant and equipment other than construction in progress less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, including cost of testing whether the related assets are functioning properly and, for qualifying assets, borrowing costs capitalised in accordance with the Group’s accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are stated at cost less subsequent accumulated depreciation and any accumulated impairment losses. Depreciation is recognised so as to write off the cost of investment properties over their estimated useful lives and after taking into account of their estimated residual value, using the straight-line method.

Notes to the Consolidated Financial Statements

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Investment properties (Continued)

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the period in which the property is derecognised.

Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets with indefinite useful lives that are acquired separately are carried at cost less any subsequent accumulated impairment losses.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are measured at the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss in the period when the asset is derecognised.

Internally-generated intangible assets – research and development expenditure

An internally-generated intangible asset arising from development activities (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Intangible assets (Continued)

Internally-generated intangible assets – research and development expenditure (Continued)

The amount initially recognised for internally-generated intangible asset is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible asset is reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets acquired separately.

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

Intangible asset acquired in a business combination

Intangible asset acquired in a business combination are recognised separately from goodwill and are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in business combination with finite useful lives are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are calculated using the first-in, first-out method. Net realisable value of inventories represents the estimated selling price in the ordinary course of business less all estimated costs of completion and costs necessary to make the sale.

Cash and cash equivalents

In the consolidated statement of financial position, cash and bank balances comprise cash (i.e. cash on hand and demand deposits) and cash equivalents. Cash equivalents are short-term (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather for investment or other purposes.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

Notes to the Consolidated Financial Statements

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Investments in subsidiaries

Investments in subsidiaries are stated on the statement of financial position of the Company at cost less accumulated impairment loss.

Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables arising from contracts with customers which are initially measured in accordance with IFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income ("FVTOCI"), and FVTPL.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them.

Financial assets at amortised cost (debt instruments)

The Group measures financial assets subsequently at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment.

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Financial assets at amortised cost (debt instruments) (Continued)

Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding the expected credit losses (“ECL”), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost. For financial assets other than purchased or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset.

Interest income is recognised in profit or loss and is included in the “other income and gains” line item (note 7).

Equity instruments designated as at FVTOCI

On initial recognition, the Group may make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognised by an acquirer in a business combination.

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the investment revaluation reserve. The cumulative gain or loss is not reclassified to profit or loss on disposal of the equity investments, instead, it is transferred to retained earnings.

Dividends from investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the 'other income and gains' line item in profit or loss.

Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI are measured at FVTPL. Specifically:

- Investments in equity instruments are classified as at FVTPL, unless the Group designates an equity investment that is neither held for trading nor a contingent consideration arising from a business combination as at FVTOCI on initial recognition.
- The Group has not designated any debt instruments as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss to the extent they are not part of a designated hedging relationship. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial asset and is included in the "other income and gains" line item. Fair value is determined in the manner described in note 46.

Financial instruments (Continued)

Financial assets (Continued)

Financial assets at FVTPL (Continued)

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative.

Impairment of financial assets and other items subject to impairment assessment under IFRS 9

The Group recognises a loss allowance for ECL on investments in debt instruments that are measured at amortised cost. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables. The ECL on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience and forward looking information that is available without undue cost or effort.

For all other financial instruments, the Group measures the loss allowance equal to 12-month ECL, unless there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of a default occurring since initial recognition.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's operations.

Notes to the Consolidated Financial Statements

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Significant increase in credit risk (Continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if (i) the debt instrument has a low risk of default, (ii) the debtor has a strong capacity to meet its contractual cash flow obligations in the near term, and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when the asset has external credit rating of "investment grade" in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of "performing". Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over three years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, e.g. when the counterparty has been placed under liquidation. Any recoveries made are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

For financial assets, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Financial instruments (Continued)

Financial liabilities and equity instruments (Continued)

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is 1) contingent consideration of an acquirer in a business combination to which IFRS 3 applies, 2) held for trading, or 3) it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been acquired principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative.

Financial liabilities at FVTPL are stated at fair value with any gains or losses arising on changes in fair value recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liabilities and is included in the "changes in fair values of financial instruments" line item in profit or loss.

Financial liabilities (Continued)

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not 1) contingent consideration of an acquirer in a business combination, 2) held-for-trading, or 3) designated as at FVTPL, are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Convertible bonds

Convertible bonds issued by the Group that contain both liability and derivatives (which are not closely related to the host liability component) are classified separately into respective items on initial recognition. Conversion option and redemption option that will be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments are classified as derivatives components. At the date of issue, both the liability and derivatives components are recognised at fair value.

In subsequent periods, the liability component of the convertible bonds is carried at amortised cost using the effective interest method. The derivative component is measured at fair value with changes in fair value recognised in profit or loss.

Transaction costs that relate to the issue of the convertible bonds are allocated to the liability and derivative components in proportion to their relative fair values. Transaction costs relating to the derivative components are charged to profit or loss immediately. Transaction costs relating to the liability component are included in the carrying amount of the liability portion and amortised over the period of the convertible bonds using the effective interest method.

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Impairment losses on property, plant and equipment, right-of-use assets and intangible assets (other than impairment of goodwill set out in accounting policy of goodwill above)

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use assets and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment, right-of-use assets, and intangible assets are estimated individually. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual CGU, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value-in-use. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a CGU) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or the CGU) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a CGU, the Group compares the carrying amount of a group of CGUs, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of CGUs, with the recoverable amount of the group of CGUs. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value-in-use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of CGUs. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or the CGU) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or the CGU) in prior years. A reversal of an impairment loss is recognised as income immediately.

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Fair value measurement

When measuring fair value except for net realisable value of inventories and value in use of assets for the purpose of impairment assessment, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Specifically, the Group categorised the fair value measurements into three levels, based on the characteristics of inputs, as follow:

- Level 1 – Fair value measurements are those derived from quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 – Fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 – Fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

At the end of the reporting period, the Group determines whether transfer occur between levels of the fair value hierarchy for assets and liabilities which are measured at fair value on recurring basis by reviewing their respective fair value measurement.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the amounts of assets, liabilities, revenue and expenses reported and disclosures made in the consolidated financial statements. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised and disclosures made in the consolidated financial statements.

Ownership of the land and buildings

As disclosed in notes 16 and 17, there are properties and land use rights located in the PRC of which the Group is in the process of obtaining the ownership certificate. Despite the fact that the Group has not obtained the relevant legal title, the directors of Company determine to recognise these lands and buildings on the ground that there is no legal barrier or otherwise for the Group to obtain such title ownership certificates and the Group is in substance controlling these lands and buildings. In the opinion of the directors of Company, the absence of formal title to these lands and buildings does not impair the value of the relevant assets to the Group.

Withholding tax provision on profit appropriation

The Group provides for withholding taxes on certain of its PRC subsidiaries' distributable profits generated in compliance with the PRC Corporate Tax Law. The Group has provided for such withholding taxes on the basis that the Group is expected to appropriate in the foreseeable future the profits which the PRC subsidiaries generate. As at 31 December 2025, the amount provided for withholding tax was approximately RMB740,111,000 (2024: RMB447,511,000). Further details are given in note 41 to the consolidated financial statements.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Deferred tax assets

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits. The carrying value of deferred tax assets relating to recognised tax losses at 31 December 2025 were approximately RMB445,910,000 (2024: RMB575,104,000). The amount of unrecognised tax losses at 31 December 2025 was approximately RMB2,686,024,000 (2024: RMB2,099,230,000). Further details are contained in note 41.

Estimated impairment of property, plant and equipment

At the end of the reporting period, the directors of the Company review the carrying amount of its property, plant and equipment of approximately RMB78,986,121,000 (2024: RMB75,393,127,000), net of accumulated impairment of property, plant and equipment of approximately RMB7,545,073,000 (2024: RMB7,128,337,000) and identify if there is indication that those assets may suffer an impairment loss. Accordingly, the recoverable amount of the property, plant and equipment is estimated in order to determine the extent of the impairment loss. The recoverable amounts of the relevant property, plant and equipment have been determined on the basis of their fair values less costs of disposal or value-in-use. The estimates of the recoverable amounts of the property, plant and equipment require the use of assumptions such as cash flow projections, depreciation rate, discount rates and market prices of scrap metal price. The selection of valuation models, adoption of key assumptions and input data and changes in these assumptions and input to valuation models may result in significant financial impact.

Based on the directors' assessment of recoverable amount of the relevant assets and with reference to fair values less costs of disposal of certain property, plant and equipment assessed by independent valuer, impairment loss on property, plant and equipment of approximately RMB416,736,000 (2024: RMB2,635,479,000) was recognised for the year ended 31 December 2025.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainty (Continued)

Estimated useful life of property, plant and equipment

At the end of each reporting period, the directors of the Company review the estimated useful life of property, plant and equipment. The estimated useful life reflects the directors' estimates of the periods that the Group intends to derive future economic benefits from the use of the Group's property, plant and equipment. The residual values reflect the directors' estimated amount that the Group would currently obtain from disposal of the assets, after deducting the estimated costs of disposal, if the assets were already of the age and in the condition expected at the end of its useful life. The carrying amounts of property, plant and equipment as at 31 December 2025 are RMB78,986,121,000 (2024: RMB75,393,127,000).

Impairment of trade receivables

The Group uses a provision matrix to calculate the ECL for trade receivables. The provision rates are based on internal credit ratings and days past due as groupings of various debtors that have similar loss patterns. The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical experience with forward-looking information. At the end of each reporting period, the historical observed default rates are updated and changes in the forward-looking information are considered. Changes in these assumptions and estimates could materially affect the result of the assessment and it may be necessary to make additional impairment charge to the consolidated statement of profit or loss and other comprehensive income.

As at 31 December 2025, the carrying amount of trade receivables was approximately RMB8,894,377,000 (2024: RMB9,773,923,000), net of allowance for impairment loss of approximately RMB7,289,000 (2024: RMB9,134,000).

Impairment assessment of interests in associates

The carrying amount of the interests in associates is tested for impairment as a single asset. Determining whether interest in an associate is impaired requires an identification of impairment indicators and an estimation of the recoverable amount of the interest in an associate. The Group identifies impairment indicators by considering the market and economic environment in which the associate operates and the financial performance of the associate. The value-in-use calculation requires the Group to estimate the future cash flows expected to arise from the associate and apply a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 31 December 2025, the carrying amount of interests in associates, excluding the loans to associates, was RMB8,402,229,000 (2024: RMB7,318,713,000). No impairment loss has been recognised in profit or loss during the years ended 31 December 2025 and 2024.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainty (Continued)

Impairment assessment of loans to associates

The impairment assessment of loans to associates is based on (i) assumptions about ECL and (ii) the net realisable value of the underlying collateral received. The Group uses judgement in making assumptions and selecting the inputs to the ECL calculation including the associates historical credit loss experience and forward-looking information at the end of the reporting period. Changes in assumption and selection of data inputs would result in significant change in carrying amount of the loans to associates. As at 31 December 2025, the carrying amount of loans to associates amounted to RMB12,020,708,000 (2024: RMB7,903,718,000), of which RMB10,020,708,000 (2024: RMB5,903,718,000) is included in interests in associates. No impairment loss has been recognised in profit or loss during the years ended 31 December 2025 and 2024.

Estimated allowance on inventories

The Group's management assesses periodically whether net realisable values of inventories have been higher than their costs. For different types of inventories, it requires the exercise of accounting estimates on subsequent sales, costs of conversion and selling expenses to calculate its net realisable value. It is reasonably possible that outcomes would be significantly affected if there is a significant change in circumstances, including the Group's business and the external environment. As at 31 December 2025, the carrying amount of inventories was approximately RMB36,635,529,000 (2024: RMB37,344,003,000), after netting off of accumulated allowance of inventories of approximately RMB673,192,000 (2024: RMB187,250,000).

Fair value of derivative component of convertible bonds

The management of the Group uses their judgments in selecting an appropriate valuation technique for financial instruments not quoted in an active market. Valuation techniques commonly used by market practitioners are applied. For derivatives financial instruments, assumptions are made based on quoted market rates adjusted for specific features of the instruments. If the inputs and estimates applied in the model are different, the carrying amount of these derivatives may change. The fair value of derivative component of convertible bonds of approximately RMB2,924,937,000 (2024: RMB2,109,265,000) as at 31 December 2025 are set out in note 40.

Fair value of financial assets measured at FVTPL and FVTOCI

The management of the Group use their judgements in selecting appropriate valuation techniques for financial instruments not quoted in an active market. The estimation of fair value of unlisted equity instruments includes some assumptions not supported by observable market prices or rates. As at 31 December 2025, the carrying amount of the unlisted equity instruments classified as FVTOCI was approximately RMB79,740,000 (2024: RMB84,360,000). As at 31 December 2025, the carrying amount of the limited partnerships and investment funds classified as financial assets at FVTPL was approximately RMB11,073,456,000 (2024: RMB11,088,589,000) and RMB4,872,594,000 (2024: nil), respectively. The directors of the Company believe that the chosen valuation techniques and assumptions are appropriate in determining the fair value of financial instruments.

Under the Law of the People's Republic of China on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% for both years. During the years ended 31 December 2025 and 2024, certain PRC subsidiaries was recognised by the PRC government as "High and New Technology Enterprise" or enjoyed the tax concession policies of the western development respectively and was eligible to a preferential tax rate of 15% (2024: 15%).

Under the Law on the Harmonization of Tax Regulations of 2021, the Group's subsidiary in Indonesia is subject to corporate income tax at 22% for both years.

No provision for Hong Kong Profits Tax was made for the years ended 31 December 2025 and 2024 as there were no assessable profits generated during the year.

The subsidiaries incorporated in BVI, Singapore and Guinea had no assessable profits since their incorporation.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

10. INCOME TAX EXPENSES (Continued)

Pillar Two Income Taxes

The Group is subject to the global minimum top-up tax under the Global Anti-base Erosion Rules (the “Pillar Two Rules”). The Group has applied the temporary exception from the accounting requirements for deferred taxes in HKAS 12. Accordingly, the Group neither recognises nor discloses information about deferred tax assets and liabilities related to Pillar Two income taxes.

Pillar Two Rules has become effective in Hong Kong in which some of the group entities are incorporated. As the estimated effective income tax rates of all the jurisdictions in which the Group operates are higher than 15 per cent, after taking into account the adjustments under the Pillar Two Rules, the directors of the Company consider that the Group is not liable to top-up tax under the Pillar Two Rules.

Under the prevailing EIT Law and its relevant regulations, any dividends paid by the Company’s PRC subsidiaries from their earnings derived after 1 January 2008 to the Company’s Hong Kong subsidiaries are subject to PRC dividend withholding tax rate of 5% or 10%, depending on the applicability of the Sino-Hong Kong tax treaty. Deferred taxation has not been provided for in the consolidated financial statements in respect of undistributed profits of relevant PRC subsidiaries in 2008, 2009 and 2010 as the management confirmed that profits generated by the relevant PRC subsidiaries will not be distributed in the foreseeable future.

Indonesia withholding income tax of 10% was levied on the Indonesia subsidiary when dividend was paid out from its profits to shareholders. No liability has been recognised in respect of these differences because the Group is in a position to control the timing of the reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future.

The tax charge for the year can be reconciled to the profit before taxation per the consolidated statement of profit or loss and other comprehensive income as follows:

	2025 RMB'000	2024 RMB'000

16. PROPERTY, PLANT AND EQUIPMENT (Continued)

The above items of property, plant and equipment, except for construction in progress, are depreciated on a straight-line basis at the following rates per annum:

Buildings	20-30 years
Plant and machinery	5-20 years
Furniture and fixtures	5-14 years
Motor vehicles	10 years
Aircraft	15 years

The buildings are situated in the PRC and held under medium lease term.

At 31 December 2025, certain of the Group's buildings with a net carrying amount of approximately RMB4,685,641,000 (2024: RMB9,487,773,000) were pledged to secure bank borrowings of the Group (note 48).

There are properties with a carrying amount of approximately RMB7,142,727,000 (2024: RMB5,215,238,000) located in the PRC of which the Group is in the process of obtaining the ownership certificates. In the opinion of the directors of the Company, there is no legal barrier or otherwise for the Group to obtain the relevant title ownership certificates for these buildings from the relevant PRC authority.

When any indicators of impairment or reversal of impairment are identified, property, plant and equipment are reviewed for impairment or reversal of impairment based on each CGU. The CGU is an individual plant. The carrying values of these individual plants were compared to the recoverable amounts of the CGUs, which were based on fair values less costs of disposal or value-in-use. Market comparison approach is used to measure the fair value less costs of disposal of the CGU which is based on the recent transaction prices for similar property, plant and equipment adjusted for nature, location and conditions of the relevant assets. Value-in-use calculations use pre-tax cash flow projections based on financial budgets approved by management covering expected earning period.

During the year ended 31 December 2025, the directors of the Company conducted a review and determine that certain power plants (2024: certain power plants and construction in progress) were impaired. The recoverable amounts of relevant property, plant and equipment were approximately RMB954,221,000 (2024: RMB974,581,000) and have been determined based on the higher of their value in use and fair value less costs of disposal and the impairment of approximately RMB416,736,000 (2024: RMB2,635,479,000) had been recognised in profit or loss.

No reversal of impairment of property, plant and equipment was recognised during the years ended 31 December 2025 and 2024.

The valuations carried out on 31 December 2025 and 2024 were performed by Wanlong (Shanghai) Assets Assessment Co., Ltd. ("Wanlong"), an independent qualified professional valuer not connected with the Group. Wanlong has appropriate qualifications and has recent experience in the valuation of similar property, plant and equipment in the relevant industries.

The fair value measurement of the property, plant and equipment is categorised within level 3 of the fair value hierarchy. There were no transfers between levels of fair value hierarchy during the year.

As at 31 December 2025, the Group is still in a process of obtaining the land certificate with the carrying amount of approximately RMB387,693,000 (2024: RMB267,668,000). In the opinion of the directors of the Company, based on the advice from the Group's external legal adviser, the absence of the land certificate does not impair its carrying value to the Group.

The Group has lease arrangements for office premises, factories, vessels, crew boats and crane barges. The lease terms are generally ranged from 2 to 20 years (2024: ranged from 2 to 20 years).

During the year ended 31 December 2025, the Group entered into a number of new lease agreements for offices premises and land use rights and recognised right-of-use assets of approximately RMB621,673,000 (2024: RMB277,731,000).

The fair value of the Group's investment properties as at 31 December 2025 was approximately RMB37,107,000 (2024: RMB42,380,000). The fair value has been arrived at with reference to a valuation carried out by ZhongJing Minxin (Beijing) Assets Appraisal Co., Ltd. and Wanlong, an independent qualified professional valuer, not connected to the Group. There has been no change from the valuation technique used in the prior year. In estimating the fair value of the properties, the highest and best use of the properties is their current use. The above investment properties are depreciated on a straight-line basis over the terms of the lease of 20 years.

The fair value hierarchy as at 31 December 2025 and 2024 of the investment properties of the Group were at Level 3. There were no transfers between levels of fair value hierarchy during the year.

The Group tests goodwill annually for impairment or more frequently if there are indications that goodwill might be impaired.

Impairment test on goodwill

For the purposes of impairment testing, the carrying amount of goodwill has been allocated to the following CGUs:

	2025 RMB'000	2024 RMB'000
Manufacture and selling of aluminum products in Beihai, the PRC (Binzhou Municipal Xinhe New Material Co., Ltd* (“Beihai Xinhe”) 滨州市北海信和新材料有限公司)	–	–

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

22. GOODWILL (Continued)

The basis of the recoverable amounts of the above CGUs and their major underlying assumptions are summarised below:

Binzhou Hongnuo New Material

The recoverable amount of this unit has been determined based on a value-in-use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a 5-year period, and a pre-tax discount rate of 21.33% (2024: 21.33%). Binzhou Hongnuo New Material's cash flows beyond the 5-year period are extrapolated using a 0% (2024: 3%) growth rate. The financial budgets estimated are consistent with the track record of the Group's projections.

Other key assumptions for the value-in-use calculations relate to the estimation of cash inflows/outflows which include budgeted sales and gross margin, such estimation is based on the unit's past performance and management's expectations for the market development. Management believes that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of Binzhou Hongnuo New Material to exceed the aggregate recoverable amount of Binzhou Hongnuo New Material.

During the years ended 31 December 2025, the Group recognised an impairment loss of approximately RMB80,418,000 (2024: nil) in relation to goodwill arising on acquisition of Binzhou Hongnuo New Material. The impairment loss of goodwill was resulted from decrease in value-in-use of Binzhou Hongnuo New Material due to business suspension.

Hongqiao Holdings

The recoverable amount of this CGU has been determined based on fair value less costs of disposal, which is determined by reference to the quoted share price of Hongqiao Holdings and relevant transaction costs.

The fair value hierarchy as at 31 December 2025 and 2024 of Hongqiao Holdings are at Level 1. There were no transfers between levels of fair value hierarchy during the year.

During the years ended 31 December 2025 and 2024, no impairment loss was recognised in relation to goodwill arising on acquisition of Hongqiao Holdings.

26. TRADE RECEIVABLES

	2025 RMB'000	2024 RMB'000
Trade receivables	8,901,666	9,783,057
Less: allowance for impairment losses	(7,289)	(9,134)
	8,894,377	9,773,923

As at 1 January 2024, the gross amount of trade receivable arising from contracts with customers amounted to approximately RMB5,496,090,000.

The Group allows an average credit period of 90 days to its trade customers with trading history, or otherwise sales on cash terms are required. The following is an aged analysis of trade receivables, net of allowance for impairment of trade receivables presented based on the date of delivery of goods, which approximates the respective revenue recognition dates, at the end of the reporting period:

	2025 RMB'000	2024 RMB'000
Within 3 months	4,930,063	6,583,327
3 to 12 months	3,961,134	3,187,646
12 to 24 months	3,180	2,950
	8,894,377	9,773,923

Before accepting any new customer, the Group will internally assess the credit quality of the potential customer and define appropriate credit limits.

The Group measures the loss allowance for trade receivables at an amount equal to lifetime ECL. The ECL on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

The Group recognised lifetime ECL for trade receivables based on the ageing of customers collectively. As at 31 December 2025, lifetime ECL of approximately RMB7,289,000 (2024: RMB9,134,000) was made in respect of trade receivables with gross amount of RMB7,289,000 (2024: RMB9,134,000) as they are determined to be credit-impaired which aged over 2 years. For the remaining balance of approximately RMB8,894,377,000 (2024: RMB9,773,923,000), the Group determines the ECL based on a provision matrix grouped by the past due status of these receivables. However, no loss allowance was made on these receivables as the identified impairment loss is immaterial.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

26. TRADE RECEIVABLES (Continued)

The provision matrix of trade receivables is set out below:

For the year ended 31 December 2025

27. BILLS RECEIVABLES

	2025 RMB'000	2024 RMB'000
Bills receivables	345,750	6,602,454

The ageing analysis of bills receivables presented based on the issue date at the end of the reporting period is as follows:

	2025 RMB'000	2024 RMB'000
Within 3 months	324,802	3,248,513
3 to 6 months	6,012	3,334,259
Over 6 months	14,936	19,682
	345,750	6,602,454

The Group measures the loss allowance for bills receivables at an amount equal to 12-month ECL. As the Group's historical credit loss experience does not indicate significant difficulties in recovering these bills receivables before their due dates, no loss allowance was provided on the Group's bills receivables for the years ended 31 December 2025 and 2024.

28. PREPAYMENTS AND OTHER RECEIVABLES

The balance consists of prepayments and other receivables at cost of:

	2025 RMB'000	2024 RMB'000
Prepayments to suppliers	2,359,175	4,322,776
Value-added tax recoverable	2,049,527	2,375,154
Receivables arising from dealing with futures	136,441	140,364

The Group is mainly exposed to US\$, HK\$ and IDR.

The following table details the Group's sensitivity to a 3% (2024: 3%) increase and decrease in RMB against the relevant foreign currencies. 3% (2024: 3%) is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates.

A positive number below indicates an increase in post-tax profit where RMB strengthen 3% (2024: 3%) against the relevant currency. For a 3% (2024: 3%) weakening of RMB against the relevant currency, there would be an equal and opposite impact on the profit and the amounts below would be negative.

	2025 RMB'000	2024 RMB'000
Effect on post-tax profit:		
US\$	180,165	99,144
HK\$	62,171	40,070

(ii) Interest rate risk

The Group's fair value interest rate risk relates primarily to its fixed-rate bank borrowings, other financial liability, liability component of convertible bonds, short-term debentures and notes, medium-term debentures and bonds and guaranteed notes.

The cash flow interest rate risk of the Group relates primarily to the restricted bank deposits, bank balances and variable-rate bank borrowings, and mainly concentrated on the fluctuation of interest rate quoted from the CFETS, PBOC and SOFR on the bank borrowings.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the end of each reporting period. For floating interest rate bank borrowings, restricted bank deposits and bank balances, the analysis is prepared assuming the amount of liabilities and assets outstanding at the end of each reporting period were outstanding for the whole year. A 25 basis points (2024: 25 basis points) increase or decrease is used which represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 25 basis points (2024: 25 basis points) higher/lower and all other variables were held constant:

	2025 RMB'000	2024 RMB'000
Increase (decrease) in profit for the year:		
As a result of increase in interest rate	(60,785)	(48,171)
As a result of decrease in interest rate	60,785	48,171

This is mainly attributable to the Group's exposure to interest rates on its interest bearing restricted bank deposits and bank balances and variable-rate bank borrowings.

(c) Market risk (Continued)

(iii) Other price risk

The Group is exposed to equity price risk through its investment in financial assets at FVTOCI. The Group's equity price risk is concentrated on equity instruments operating in bank industry, industrial metals and mining industry and technology industry sector quoted in the Stock Exchange. For unquoted equity security designated as FVTOCI, the investee is operating in semiconductor industry sector. In addition, the Group has appointed a special team to monitor the price risk and will consider hedging the risk exposure should the need arise.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to equity price risk at the end of the reporting period.

If the price of the quoted equity instrument had been 10% (2024: 10%) higher/lower, other comprehensive income for the year ended 31 December 2025 would increase/decrease by approximately RMB143,932,000 (2024: RMB106,045,000) as a result of the changes in fair value of financial assets at FVTOCI.

If the P/B multiples of the unquoted equity instrument had been 10% (2024: 10%) higher/lower, other comprehensive income for the year ended 31 December 2025 would increase/decrease by approximately RMB23,690,000 (2024: RMB8,440,000) as a result of the changes in fair value of financial assets at FVTOCI.

(d) Credit risk

Credit risk refers to the risk that the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. As at 31 December 2025 and 2024, the Group's maximum exposure to credit risk without taking into account any collateral held or other credit enhancements, which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

The credit risk of the Group mainly arises from loans to associates, financial asset at amortised cost, trade receivables, bills receivables, other receivables, time deposits with maturity over three months, restricted bank deposits and bank balances. The carrying amounts of these balances represent our Group's maximum exposure to credit risk in relation to financial assets.

46. FINANCIAL INSTRUMENTS (Continued)

(d) Credit risk (Continued)

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts.

For trade receivables, the Group has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime ECL. The Group determines the ECL collectively by using a provision matrix, estimated based on historical credit loss experience, as well as the general economic conditions of the industry in which the debtors operate. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

For other non-trade related receivables, the Group has assessed whether there has been a significant increase in credit risk since initial recognition. The Group considers that there are no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12-month ECL.

Management considered loans to an associates to be low credit risk and thus the impairment provision recognised during the year was limited to 12-month ECL.

The credit risk on liquid funds and financial assets at amortised cost are limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

The Group's exposure to credit risk

In order to minimise credit risk, the Group has tasked its management to develop and maintain the Group's credit risk grading to categorise exposures according to their degree of risk of default. The credit rating information is supplied by the management uses the Group's own days past due to rate its major customers and other debtors. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

The Group's exposure to credit risk (Continued)

The Group's current credit risk grading framework comprises the following categories:

Category	Description	Basis for recognising ECL	
		Trade receivables	Other financial assets
Performing	For financial assets where there has low risk of default or has not been a significant increase in credit risk since initial recognition and that are not credit-impaired (refer to as Stage 1)	Lifetime ECL (simplified approach)	12-month ECL
Doubtful	For financial assets where there has been a significant increase in credit risk since initial recognition but that are not credit-impaired (refer to as Stage 2)	Lifetime ECL – not credit-impaired	Lifetime ECL – not credit-impaired
Default	Financial assets are assessed as credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred (refer to as Stage 3)	Lifetime ECL – credit-impaired	Lifetime ECL – credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written off	Amount is written off

Notes:

- For trade receivables, the Group has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime ECL. The Group determines the expected credit losses on these items by using a provision matrix, grouped by past due status. The identified impairment loss is immaterial.
- The credit risk on bills receivables is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies and thus the impairment provision recognised during the year was limited to 12-month ECL.
- For the loans to associates, the Group regularly monitors the business performance of the associates. The Group's credit risks in these balances are mitigated through the value of the assets held by these entities, the collateral and the power to participate the relevant activities of these entities and thus the impairment provision recognised during the year was limited to 12-month ECL.

(d) Credit risk (Continued)

The Group's exposure to credit risk (Continued)

The Group has concentration of credit risk as 11% (2024: 10%) and 45% (2024: 43%) of the total trade receivables was due from the Group's largest customer and the five largest customers respectively.

The Group's concentration of credit risk by geographical locations is mainly in the PRC, which accounted for 98% (2024: 98%) of the total receivables as at 31 December 2025.

The Group has concentration of credit risk in respect of bank's acceptance bills receivables as the Group's largest bills receivables from the top major bank represented 10% (2024: 9%) of the total bills receivables as at 31 December 2025. In addition, the Group's bills receivables from the top five major banks represented 35% (2024: 32%) of the total bills receivables as at 31 December 2025.

The credit risk on bank balances and restricted bank deposits is limited because such amounts are placed with various banks with good credit ratings. Other than disclosed above, the Group does not have any other significant concentration of credit risk.

(e) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the directors of the Company, which has built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements.

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The Group relies on cash generated from operating activities as a significant source of liquidity. Other than the cash generated from operating activities, the Group's management is responsible for obtaining funding from other sources, including guaranteed notes, convertible bonds, bank borrowings, medium-term debentures and bonds and issue of new shares. The management also monitors the recognition of bank borrowings and ensures compliance with loan covenants.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities and lease liabilities based on the agreed repayment terms. The table has been drawn up based on the undiscounted cash flows of financial liabilities and lease liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. To the extent that interest flows are at floating rate, the undiscounted amount is derived based on the interest rate at the end of each reporting period.

(g) Transfers of financial assets

The following were the Group's financial assets transferred to suppliers by endorsing those bills receivables on a full recourse basis. As the Group has retained the significant risks and rewards which include default risks, relating to these bills receivables, it continues to recognise the full carrying amount of the bills receivables and the corresponding trade payables and other payables in the consolidated statement of financial position. Subsequent to the endorsement, the Group did not retain any rights on the use of the endorsed bills, including the sale, transfer or pledge of the endorsed bills to any other third parties. These financial assets and financial liabilities are carried at amortised cost in the consolidated statement of financial position.

Note: The maturity dates of bills receivables have not yet due at the end of the reporting period. As the Group was still exposed to credit risk on these receivables at the end of the reporting period, the cash received from the bills endorsed to the suppliers for which the maturity dates have not yet been due are recognised as current liabilities in the consolidated statement of financial position.

47. CHANGES IN OWNERSHIP INTEREST IN SUBSIDIARIES

During the years ended 31 December 2025 and 2024, the Group had the following change in its ownership interests in subsidiaries that do not result in a loss of control.

During the year ended 31 December 2025, the Group and the other non-controlling shareholders of Shandong Hongtuo completed a share swap agreement, transferring their entire equity interests in Shandong Hongtuo to Hongqiao Holdings in exchange for newly issued shares of Hongqiao Holdings. As a result of this transaction, the Group's ownership interest in Hongqiao Holdings increased to 88.99% and Shandong Hongtuo become a wholly-owned subsidiary of Hongqiao Holdings. The resulting impact on non-controlling interests was recognised within equity, with a corresponding adjustment to capital reserves.

During the year ended 31 December 2025, the Group acquired an additional 1.44% issued shares of Shandong Hongqiao, increasing its ownership interest to 100%. Cash consideration of approximately RMB1,014,213,000 was paid to the non-controlling shareholders. The difference between the carrying amount of 1.44% interest acquired of Shandong Hongqiao and consideration paid was recognised in capital reserve within equity.

47. CHANGES IN OWNERSHIP INTEREST IN SUBSIDIARIES (Continued)

During the year ended 31 December 2025, the Group acquired an additional 25% issued shares of Yunnan Hongtai New Material Co., Ltd. (“Yunnan Hongtai”) * 雲南宏泰新型材料有限公司, increasing its ownership interest to 100%. Cash consideration of approximately RMB3,023,667,000 was paid to the non-controlling shareholders. The difference between the carrying amount of 25% interest acquired of Shandong Hongqiao and consideration paid was recognised in capital reserve within equity.

During the year ended 31 December 2024, the Group acquired an additional 4.04% issued shares of Shandong Hongqiao, increasing its ownership interest to 98.56%. Cash consideration of approximately RMB3,084,009,000 was paid to the non-controlling shareholders. The difference between the carrying amount of 4.04% interest acquired of Shandong Hongqiao and consideration paid was recognised in capital reserve within equity.

48. PLEDGE OF ASSETS

At the end of each reporting period, certain of the Group’s assets were pledged to secure banking facilities and borrowings granted to the Group. The aggregate carrying amount of the assets of the Group pledged at the end of each reporting period is as follows:

	2025 RMB'000	2024 RMB'000
Restricted bank deposits (note 30)	3,325,853	2,797,477
Property, plant and equipment (note 16)	4,685,641	9,487,773

In addition, the Group agreed to provide performance guarantee for Baowu Simandou Mining (Shanghai) Company Limited (“Baowu Simandou (Shanghai)”), an independent third party, for the funding obligation under the Simandou project entered into between Winning Consortium Simandou Pte. Ltd. (“WCS”) and Winning Consortium Simandou Infrastructure Pte. Ltd. (“WCSI”), associates of the Group and being the beneficiary, and Baowu Simandou (Shanghai). Pursuant to the agreements, the Group shall undertake to fund the project on its behalf to an amount not exceed US\$1,780,000,000, equivalent to approximately RMB12,607,206,000 (which indirectly include the obligations of the Group for its relevant funding contribution under the Winning Consortium Holdings Pte. Ltd.’s shareholders agreement).
